Annual Report October 31, 2022

As permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Funds' (defined below) shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from your financial intermediary (such as a broker-dealer or bank). Instead, shareholder reports will be available on the Funds' website (www.globalxetfs.com/explore), and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Funds electronically anytime by contacting your financial intermediary.

You may elect to receive all future Fund shareholder reports in paper free of charge. Please contact your financial intermediary to inform them that you wish to continue receiving paper copies of Fund shareholder reports and for details about whether your election to receive reports in paper will apply to all funds held with your financial intermediary.

TABLE OF CONTENTS

Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Shares may only be redeemed directly from a Fund by Authorized Participants, in very large creation/redemption units. Brokerage commissions will reduce returns.

The Funds file their complete schedules of Fund holdings with the Securities and Exchange Commission (the "SEC" or "Commission") for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The Funds' Forms N-PORT are available on the Commission's website at <http://www.sec.gov>, and may be reviewed and copied at the Commission's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

A description of the policies and procedures that Global X Funds uses to determine how to vote proxies relating to Fund securities, as well as information relating to how the Funds voted proxies relating to Fund securities during the most recent 12-month period ended June 30, is available (i) without charge, upon request, by calling 1-888-493-8631; and (ii) on the Commission's website at <http://www.sec.gov>

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X Social Media ETF

Global X Social Media ETF

The Global X Social Media ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Social Media Total Return Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is designed to reflect the performance of companies involved in the social media industry, including companies that provide social networking, file sharing, and other web-based media applications, as defined by Solactive AG, the provider of the Underlying Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 59.24%, while the Underlying Index decreased 59.15%. The Fund had a net asset value of \$61.26 per share on October 31, 2021 and ended the reporting period with a net asset value of \$24.88 per share on October 31, 2022.

During the reporting period, the highest returns came from Zynga Inc. and Twitter Inc., which returned 10.84% and 0.30%, respectively. The worst performers were Vimeo, Inc. and Bilibili, Inc, which returned -88.73% and -87.83%, respectively.

Fund performance was negative over the reporting period as the COVID-19 pandemic-induced growth for the social media industry faded. Macroeconomic challenges, increased competition for user attention, a weaker economy, and inflationary pressures all contributed to this decline. Given tightened spending budgets, a significant portion of companies cut their digital advertisement spending which is the primary source of revenue for most social platforms. Additionally, as pandemic conditions continued to ease, consumers returned to spending more of their time offline. Sector weighting of the Fund was highest in Communication Services, at 98.10% during the reporting period. Geographically, the Fund maintained an average allocation of 49.66% to United States stocks, followed by China (30.06%) and South Korea (11.08%) during the reporting period.

AVERAGE ANNUAL TOTAL RETURN FOR THE YEAR ENDED OCTOBER 31, 2022								
One Year Return		Three Year Return		Five Year Return		Ten Year Return

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited)

Global X Social Media ETF

Growth of a \$10,000 Investment

(At Net Asset Value)

* The Fund commenced operations on November 14, 2011.

The MSCI ACWI (Net) (All Country World Index) Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging market

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, it may be worth less than its original cost. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund's performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Performance figures for the periods shown may reflect contractual fee waivers and/or expense reimbursements. In the absence of fee waiver sand/or expense reimbursements (if applicable), returns would have been lower.

There are no assurances that the Fund will meet its stated objectives.

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares.

See definition of comparative indices on the previous page.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X Lithium & Battery Tech ETF

Global X Lithium & Battery Tech ETF

The Global X Lithium & Battery Tech ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global Lithium Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is designed to measure broad-based equity market performance of global companies involved in the lithium industry, as defined by Solactive AG, the provider of the Underlying Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 26.10%, while the Underlying Index decreased 25.65%. The Fund had a net asset value of \$91.07 per share on October 31, 2021 and ended the reporting period with a net asset value of \$67.13 per share on October 31, 2022.

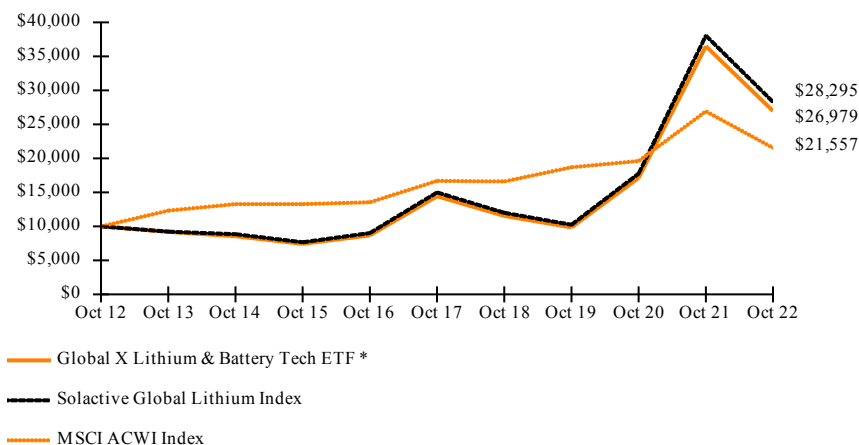

During the reporting period, the highest returns came from Pilbara Minerals Limited and Sociedad Quimica y Minera de Chile SA, which returned 96.97% and 80.14%, respectively. The worst performers were Varta AG and QuantumScape Corporation, which returned -82.04% and -71.22%, respectively.

Over the reporting period, rising prices for raw material inputs used in battery manufacturing, as well as supply chain disruptions caused by the Russia-Ukraine war and COVID-19 pandemic-related lockdown measures in China contributed to the Fund's negative performance. Battery tech companies struggled to pass rising costs onto consumers through most of the reporting period, contributing to negative sentiments toward various Fund holdings. Lithium miners however, benefitted from the materials pricing environment, as lithium prices reached record highs and remained elevated. This dynamic directly translated into almost unanimous revenue growth and margin expansion amongst senior lithium miners. Strong returns from companies involved in lithium mining provided balance to performance, allowing the Fund to outperform major indexes despite a negative return. During the reporting period, the Fund had an average approximate stock exposure of 41.87% in China, 21.49% in the United States, 10.80% in South Korea, and 10.25% in Japan. By sector, it had the highest exposure to Materials, at 47.69%, followed by Industrials (20.33%), Information Technology (16.24%), and Consumer Discretionary (15.61%).

AVERAGE ANNUAL TOTAL RETURN FOR THE YEAR ENDED OCTOBER 31, 2022

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X Disruptive Materials ETF

Global X Disruptive Materials ETF

The Global X Disruptive Materials ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Disruptive Materials Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is designed to provide exposure to companies that produce metals and other raw or composite materials that have been identified as being essential to disruptive technologies such as lithium batteries, solar panels, wind turbines, fuel cells, robotics, and 3D printers. Each material has been determined by Solactive AG, the provider of the Underlying Index (the “Index Provider”) to be instrumental to the development and materialization of one or more disruptive technologies. Disruptive technologies refer to those technologies that are essential to the development and materialization of long-term, structural changes to existing products, services, industries, or sectors. Specifically, the Underlying Index will include securities issued by “Disruptive Materials Companies” as defined by the Index Provider.

From the inception of the Fund to period ended October 31, 2022 (the “reporting period”), the Fund decreased 22.98%, while the Underlying Index decreased 22.72%. The Fund had a net asset value of \$23.75 per share on January 24, 2022 and ended the reporting period with a net asset value of \$18.07 on October 31, 2022.

During the reporting period, the highest returns came from Livent Corp and Teck Resources Limited, which returned 44.09% and 34.82%, respectively. The worst performers were Nickel Industries Ltd. and Yunnan Tin Co Ltd, which returned -55.50% and -55.19%, respectively.

The Fund generated negative returns over the reporting period due to factors including investor concerns of an economic slowdown and geopolitical complications. Commodity prices generally entered 2022 at elevated levels due to strong demand and supply chain disruptions attributable to the COVID-19 pandemic. However, later in the reporting period, investor fears of recession lead to declining materials prices and, in turn, declining investor sentiment toward relevant suppliers. Additionally, disruptions in China as well as warfare in Ukraine contributed to negative sentiments. COVID-19 pandemic-related lockdowns caused decreased investor confidence in China, leading to speculation that demand for raw materials could falter. These lockdowns also generated negative sentiment as China is a key mining and processing center for several disruptive materials. Furthermore, conflict between Russian and Ukraine had a mixed impact on material suppliers. The conflict created supply chain disruptions that support higher pricing. However, the conflict also led to energy shortages that jeopardized European manufacturing capacity for raw materials throughout the reporting period. During the reporting period, the Fund had an average approximate stock exposure of 27.39% in China, 18.92% in the United States, 13.66% in South Africa, and 11% in Australia. By sector, it had the highest exposure to Materials, at 93.59%, followed by Industrials (5.94%), Information Technology (0.29%).

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares.

See definition of comparative indices above.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X E-commerce ETF

Global X E-commerce ETF

The Global X E-commerce ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive E-commerce Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is designed to provide exposure to exchange-listed companies that are positioned to benefit from the increased adoption of e-commerce as a distribution model, including but not limited to companies whose principal business is in operating e-commerce platforms, providing e-commerce software and services, and/or selling goods and services online (collectively, “E-commerce Companies”), as defined by Solactive AG, the provider of the Underlying Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 51.19%, while the Underlying Index decreased 51.02%. The Fund had a net asset value of \$31.19 per share on October 31, 2021 and ended the reporting period with a net asset value of \$15.14 per share on October 31, 2022.

During the reporting period, the highest returns came from GoDaddy, Inc. and Istdibs.com, Inc., which returned 16.24% and 4.48%, respectively. The worst performers were eHealth, Inc. and Wayfair, Inc., which returned -93.96% and -84.78%, respectively.

Globally, E-Commerce Companies have been affected by supply chain issues, rising inflation, and rising interest rates which resulted in negative returns for the Fund during the reporting period. Despite underperformance relative to a period of acceleration in online sales growth driven by the COVID-19 pandemic, key business segments within the e-commerce industry continue to present attractive opportunities. Momentum in emerging markets remains a key driver of e-commerce growth. Furthermore, as a result of the expansive offerings and added convenience of e-commerce for consumers, e-commerce sales as a percentage of total retail sales in the United States increased. Importantly, its market share is still well above comparable periods before the COVID-19 pandemic. During the reporting period, sector weightings were highest in Consumer Discretionary at 67.60%, followed by Communication Services (11.34%). Geographically, the Fund maintained an average allocation of 55.21% to United States stocks, followed by China (25.71%) and the United Kingdom (4.99%) during the reporting period.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited)
Global X Emerging Markets Internet & E-commerce ETF

Global X Emerging Markets Internet & E-commerce ETF

The Global X Emerging Markets Internet & E-commerce ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Nasdaq CTA Emerging Markets Internet & E-commerce Net Total Return Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is designed to provide exposure to exchange-listed companies that are expected to benefit from further adoption of internet and e-commerce technologies in emerging markets countries (collectively, “Emerging Markets Internet & E-commerce Companies”), as defined by Nasdaq, Inc., the provider of the Underlying Index (the “Index Provider”) and the Consumer Technology Association (“CTA”). The Index Provider and the CTA have jointly developed the eligibility and selection criteria for the Underlying Index. In order to be eligible for inclusion in the Underlying Index, a company is considered by the CTA to be an Emerging Markets Internet & E-commerce Company if it derives at least 50% of its revenue, operating income, or assets from: (i) internet-related services (including social media and online entertainment), (ii) internet retail commerce, (iii) internet search engine services, and/or (iv) software delivered via the internet.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 54.30%, while the Underlying Index decreased 54.12%. The Fund had a net asset value of \$35.97 per share on October 31, 2021 and ended the reporting period with a net asset value of \$16.38 per share on October 31, 2022 (as adjusted to account for a 1:3 reverse share split on December 19, 2022).

During the reporting period, the highest return came from Totvs SA, which returned 9.65%. The worst performers were Bilibili, Inc. and Iqiyi, Inc., which returned -87.83% and -75.60%, respectively.

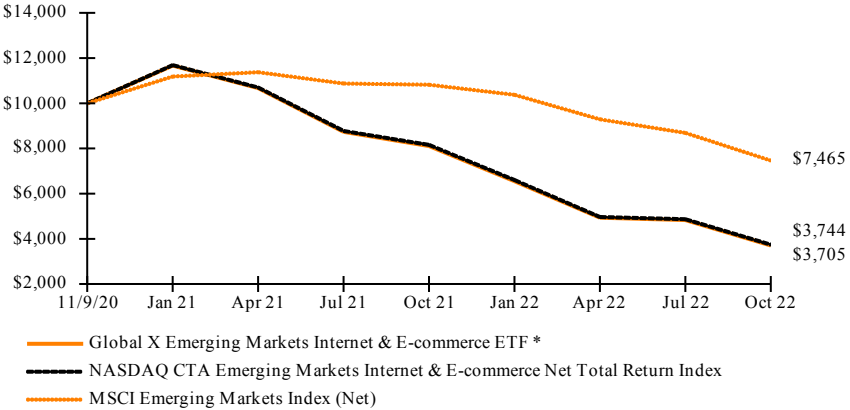

Emerging markets, which are more vulnerable to global economic downturns, faced several challenges leading to negative returns during the reporting period. These included Russia's invasion of Ukraine, soaring energy and commodities prices and high global inflation. These factors, combined with logistical challenges, including supply chain disruptions caused by COVID-19 pandemic-related lockdowns in China, combined to slow growth in emerging markets. Overall, these macroeconomic challenges hurt the performance of many leading Chinese e-commerce companies, contributing to the Fund's negative returns. Despite these challenges, the opportunity for emerging market penetration into the e-commerce industry remains significantly higher than in developed markets, especially as new technologies enter these developing nations. In addition, fiscal policy in many emerging countries was eased after the COVID-19 pandemic, but it is now tightening as governments try to mitigate the impact of inflation. During the reporting period, sector weightings of the Fund were highest in Consumer Discretionary at 51.84%, ahead of Communication Services at 40.22%. Geographically, the Fund maintained an average allocation of 71.15% to Chinese stocks, followed by South Korean (10.97%) and Brazilian (9.23%) during the reporting period.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X SuperDividend® ETF

Global X SuperDividend® ETF

The Global X SuperDividend® ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global SuperDividend® Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index tracks the performance of 100 equally-weighted companies that rank among the highest dividend yielding equity securities in the world, including emerging market countries, as defined by Solactive AG, the provider of the Underlying Index (“Index Provider”). The Index Provider applies certain dividend stability filters.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 33.80%, while the Underlying Index decreased 35.81%. The Fund had a net asset value of \$39.03 per share on October 31, 2021 and ended the reporting period with a net asset value of \$23.05 per share on October 31, 2022 (as adjusted to account for a 1:3 reverse share split on December 19, 2022).

During the reporting period, the highest returns came from Yankuang Energy Group Company Limited and BW LPG Ltd., which returned 63.23% and 54.47%, respectively. The worst performers were PhosAgro PJSC and Evraz Plc, which returned -99.77% and -87.71%, respectively.

The stocks held by the Fund have some of the highest dividend yields in the world. The Fund generated negative returns in the reporting period as increasing volatility negatively impacted the global equity markets. High-dividend-yielding sectors such as real estate experienced a downturn as rising interest rates increased investors' financing costs and weaker consumer sentiment reduced demand for retail space, negatively impacting the Fund's performance. Furthermore, concerns about a global recession impacted the financial services sectors to which the Fund has the most exposure. However, the energy sector has supported the Fund with rising oil and natural gas prices, as many countries ended or eased COVID-19 pandemic-related restrictions. Geographically, the Fund maintained an average allocation of 28.16% to U.S. stocks, followed by China (15.81%), Hong Kong (11.45%) and Brazil (11.06%) during the reporting period. By sector, it averaged an approximate exposure of 29.91% to Financials, 21.94% to Real Estate, 9.25% to Materials, and 9.19% to Energy.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X SuperDividend® ETF

Growth of a \$10,000 Investment (At Net Asset Value)

* The Fund commenced operations on June 8, 2011.

The MSCI ACWI (Net) (All Country World Index) Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, it may be worth less than its original cost. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund's performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Performance figures for the periods shown may reflect contractual fee waivers and/or expense reimbursements. In the absence of fee waiver sand/or expense reimbursements (if applicable), returns would have been lower.

There are no assurances that the Fund will meet its stated objectives.

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares.

See definition of comparative indices on the previous page.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X SuperDividend® U.S. ETF

Global X SuperDividend® U.S. ETF

The Global X SuperDividend® U.S. ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Indxx SuperDividend® U.S. Low Volatility Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is maintained by Indxx, LCC (the “Index Provider”). The Underlying Index tracks the performance of 50 equally weighted common stocks, MLPs and REITs that rank among the highest dividend yielding equity securities in the United States, as defined by the Index Provider. The components of the Underlying Index will have also paid dividends consistently over the last two years. The Underlying Index is comprised of securities that the Index Provider determines to have lower relative volatility than the market.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund increased 1.16%, while the Underlying Index increased 1.80%. The Fund had a net asset value of \$20.13 per share on October 31, 2021 and ended the reporting period with a net asset value of \$19.18 per share on October 31, 2022.

During the reporting period, the highest returns came from Sabine Royalty Trust and SpartanNash Company, which returned 76.86% and 58.85%, respectively. The worst performers were Warner Bros Discovery, Inc. and AGNC Investment Corp, which returned -46.79% and -41.76%, respectively.

The Fund invests in many of the highest-yielding stocks in the United States. High-dividend investing is a value-oriented strategy, which seeks to produce low-volatility returns. Equity market uncertainty, global growth concerns, and geopolitical crisis made dividend investing more appealing resulting in outperformance compared to the broader S&P 500® Index during the reporting period, contributing to the Fund’s positive returns. The Fund’s exposure to sectors aided by the transition towards renewable energy and rise in energy prices, such as Utilities and Energy added to the Fund’s performance during the reporting period. During the fiscal year, by sector, the Fund averaged an exposure of 19.01% to Energy, 18.24% to Consumer Staples, 16.55% to Utilities, and 12.31% to Financials.

AVERAGE ANNUAL TOTAL RETURN FOR THE YEAR ENDED OCTOBER 31, 2022

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X MSCI SuperDividend® EAFE ETF

Global X MSCI SuperDividend® EAFE ETF

The Global X MSCI SuperDividend® EAFE ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the MSCI EAFE Top 50 Dividend Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index tracks the performance of 50 equally-weighted companies that rank among the highest dividend yielding equity securities in Europe, Australasia and the Far East, as defined by MSCI, the provider of the Underlying Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 18.12%, while the Underlying Index decreased 17.70%. The Fund had a net asset value of \$15.62 per share on October 31, 2021 and ended the reporting period with a net asset value of \$11.98 per share on October 31, 2022.

During the reporting period, the highest returns came from Telecom Italia Rsp and British American Tobacco PLC, which returned 27.73% and 21.28%, respectively. The worst performers were Persimmon PLC and Fortum Oyj, which returned -54.91% and -49.47%, respectively.

The Fund experienced negative returns during the reporting period. Performance suffered due to a fall in currencies of countries in developed markets, as the U.S. dollar continued to outperform, and power prices in Europe rose as a result of Russia's invasion of Ukraine, with worsening disruption of energy markets causing negative inflationary impacts. The shift in policy by central banks, including implementing higher interest rates, resulted in continued international equity losses. During the reporting period, sector weighting reported highest in Financials (31.13%), followed by Utilities (19.05%). The Fund has the highest average exposure to U.K. stocks at 22.36%, ahead of Australia (10.82%), Japan (9.98%), and Spain (8.22%).

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X MSCI SuperDividend® Emerging Markets ETF

Global X MSCI SuperDividend® Emerging Markets ETF

The Global X MSCI SuperDividend® Emerging Markets ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the MSCI Emerging Markets Top 50 Dividend Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is based on the MSCI Emerging Markets Index, its parent index (the “Parent Index”), which includes large and mid-cap stocks across 23 emerging markets countries. The Underlying Index aims to reflect the performance of 50 securities from the Parent Index, selected by dividend yield that have increased or maintained their dividend per share compared to the previous year or have increased or maintained their payout ratio (defined as dividend per share/earnings per share) if the dividend per share has dropped by up to 10%.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 30.80%, while the Underlying Index decreased 31.08%. The Fund had a net asset value of \$33.78 per share on October 31, 2021 and ended the reporting period with a net asset value of \$21.36 per share on October 31, 2022 (as adjusted to account for a 1:3 reverse share split on December 19, 2022).

During the reporting period, the highest returns came from Yankuang Energy Group Company Limited and Coal India Ltd, which returned 109.90% and 62.86%, respectively. The worst performers were PhosAgro PJSC and Top Glove Corporation Bhd, which returned -99.77% and -74.26%, respectively.

The Fund’s holdings include some of the stocks with the highest dividend yields in emerging markets. During the reporting period, tightening monetary policy by central banks, global supply chain issues resulting from Russia’s invasion of Ukraine, COVID-19 pandemic-related lockdowns in China and a strong U.S. dollar all contributed to a slowdown in emerging markets economic growth, resulting in the Fund’s negative returns. Additionally, rising commodity prices pushed up inflation rates, negatively impacting consumer purchasing power. Investors also took more of a risk-off perspective with equity markets globally remaining volatile. During the reporting period, the Fund averaged an approximate stock exposure of 26.68% in China, 11.15% in Brazil, 9.37% in South Africa, and 8.73% in Taiwan. By sector, it had the highest exposure to Materials (27.20%), followed by Energy (18.46%), Financials (13.16%), and Real Estate (11.55%) during the reporting period.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X SuperDividend® REIT ETF

Global X SuperDividend® REIT ETF

The Global X SuperDividend® REIT ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global SuperDividend® REIT Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index tracks the performance of Real Estate Investment Trusts (“REITs”) that rank among the highest yielding REITs globally, as determined by Solactive AG, the provider of the Underlying Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 21.21%, while the Underlying Index decreased 20.88%. The Fund had a net asset value of \$29.46 per share on October 31, 2021 and ended the reporting period with a net asset value of \$21.65 per share on October 31, 2022 (as adjusted to account for a 1:3 reverse share split on December 19, 2022).

During the reporting period, the highest returns came from Fibra Uno Administracion SA and Getty Realty Corp, which returned 16.78% and 10.79%, respectively. The worst performers were AGNC Investment Corp and Armour Residential REIT, Inc., which returned -41.76% and -40.78%, respectively.

The Fund invests in real estate investment trusts (“REITs”), which have some of the highest dividend yields in the world. During the reporting period, the housing market experienced an inflection point as a rapid rise in interest rates, rising home prices, and escalating material costs globally made borrowing costlier for consumers, contributing to the Fund's negative performance. Mortgage REITs were affected by this trend, in addition to the impact on the housing market. These factors contributed to the Fund's negative performance. Rising interest rates generally affected REITs in an adverse manner. During the reporting period, the Fund averaged an approximate exposure of 60.36% to Real Estate and 38.87% to Financials. Geographically, the United States led average approximate exposure at 60.26%, followed by Singapore (23.28%) and Canada (8.15%).

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X NASDAQ 100[®] Covered Call ETF

Global X NASDAQ 100[®] Covered Call ETF

The Global X Nasdaq 100[®] Covered Call ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the CBOE Nasdaq-100[®] BuyWrite V2 Index (“Underlying Index”). The Fund is passively managed and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The CBOE NASDAQ-100[®] BuyWrite Index (“BXN Index”) is a benchmark index that measures the performance of a theoretical portfolio that holds a portfolio of the stocks included in the NASDAQ-100[®] Index (“Reference Index”), and “writes” (or sells) a succession of one-month at-the-money (“ATM”) covered call options on the Reference Index. The Underlying Index replicates the methodology used to calculate the BXN Index, with one exception: the written Reference Index covered call options are held until one day prior to the expiration date (i.e., generally the Thursday preceding the Third Friday of the month) and are liquidated at a volume weighted average price determined at the close.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 19.18%, while the Underlying Index decreased 18.86%. The Fund had a net asset value of \$22.82 per share on October 31, 2021 and ended the reporting period with a net asset value of \$16.15 per share on October 31, 2022.

During the reporting period, the highest returns came from Constellation Energy Corporation and Vertex Pharmaceuticals Inc., which returned 91.35% and 68.71%, respectively. The worst performers were DocuSign, Inc. and Okta, Inc., which returned -82.64% and -77.30%, respectively.

The Fund invests in stocks on the Reference Index and “writes” or “sells” corresponding call options on the Reference Index. This strategy tends to produce higher yields in volatile and uncertain times when the Fund can collect higher option premiums. The Reference Index’s performance suffered due to the negative performance of market-leading technology and tech-adjacent companies. High inflation, rate hikes implemented by central banks, and recessionary fears of investors gripped market sentiments during the reporting period, causing traditional equities to underperform, resulting in the Fund’s negative returns. The Fund collected high option premiums when the market was volatile, but the rally by constituents of the Reference Index adversely affected ATM options writing and limited Fund performance. Due to its covered call strategy, the Fund loses profit potential if the Reference Index rises above the strike price of the index call option.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X NASDAQ 100[®] Covered Call ETF

Growth of a \$10,000 Investment (At Net Asset Value)

* The Fund commenced operations on December 11, 2013.

** Hybrid Index performance reflects the performance of the CBOE NASDAQ-100[®] BuyWrite Index through October 14, 2015 and CBOE NASDAQ-100[®] BuyWrite V2 Index thereafter.

The Fund operated as the Horizons NASDAQ 100[®] Covered Call ETF (the “Predecessor Fund”), a series of Horizons ETF Trust I, prior to the Fund’s acquisition of the assets and assumption of the liabilities of the Predecessor Fund on December 24, 2018 (See Note 1 in Notes to Financial Statements).

On October 14, 2015, Global X Management Company LLC (The “Advisor”) changed the Fund’s primary benchmark from the BXN Index to BXNT Index in connection with a change in the Fund’s principal strategies. The Advisor believes the BXNT Index is a better measure of the Fund’s performance. Returns reflect a blended benchmark.

The Nasdaq-100[®] Index includes 100 of the largest domestic and international non-financial companies listed on The Nasdaq Stock Market based on market capitalization.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, it may be worth less than its original cost. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund’s performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund’s returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Performance figures for the periods shown may reflect contractual fee waivers and/or expense reimbursements. In the absence of fee waiver sand/or expense reimbursements (if applicable), returns would have been lower.

There are no assurances that the Fund will meet its stated objectives.

Global X NASDAQ 100® Covered Call ETF

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares.

See definition of comparative indices on the previous page.

by Mirae Asset

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X S&P 500® Covered Call ETF

Global X S&P 500® Covered Call ETF

The Global X S&P 500® Covered Call ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the CBOE S&P 500® BuyWrite Index (“Underlying Index”). The Fund is passively managed, and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is comprised of two parts: (1) all the equity securities in the S&P 500® Index (the "Reference Index") in substantially similar weight as the Reference Index; and (2) short (written) call options on up to 100% of the Reference Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 10.72%, while the Index decreased 9.97%. The Fund had a net asset value of \$50.37 per share on October 31, 2021 and ended the reporting period with a net asset value of \$40 per share on October 31, 2022.

During the reporting period, the highest returns came from Occidental Petroleum Corporation and Devon Energy Corporation, which returned 117.95% and 108.22%, respectively. The worst performers were Generac Holdings Inc. and Match Group, Inc., which returned -76.75% and -71.35%, respectively.

The Fund invests in stocks listed on the Reference Index and “writes” or “sells” corresponding call options on the same index. The Reference Index generated negative returns during the reporting period as interest rates rose and global currencies experienced turmoil, which contributed to the Fund's negative returns. Investor concerns about the outlook for U.S. equities weighed on Fund performance. However, the Fund also collected higher option premiums in this environment, offsetting some of its equity losses. Because of the Fund's options-writing strategy, it forfeits potential profit when the Underlying Index rises above the strike price of the index call option.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X S&P 500[®] Covered Call ETF

Growth of a \$10,000 Investment (At Net Asset Value)

* The Fund commenced operations on June 21, 2013.

** Hybrid Index performance reflects the performance of the S&P 500[®] Stock Covered Call Index through September 14, 2017, the CBOE S&P 500 2% OTM BuyWrite Index through August 20, 2020 and the CBOE S&P 500 BuyWrite Index thereafter.

The Fund operated as the Horizons S&P 500[®] Covered Call ETF (the “Predecessor Fund”), a series of Horizons ETF Trust I, prior to the Fund’s acquisition of the assets and assumption of the liabilities of the Predecessor Fund on December 24, 2018 (See Note 1 in Notes to Financial Statements).

The S&P 500[®] Index is a market capitalization weighted composite index of 500 large capitalization U.S. companies.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, it may be worth less than its original cost. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund’s performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund’s returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Performance figures for the periods shown may reflect contractual fee waivers and/or expense reimbursements. In the absence of fee waiver sand/or expense reimbursements (if applicable), returns would have been lower.

There are no assurances that the Fund will meet its stated objectives.

The Fund’s holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X Russell 2000 Covered Call ETF

Global X Russell 2000 Covered Call ETF

The Global X Russell 2000 Covered Call ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the CBOE Russell 2000 BuyWrite Index (“Underlying Index”). The Fund is passively managed and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index measures the performance of a theoretical portfolio that holds a portfolio of the stocks included in the Russell 2000 Index (the “Reference Index”), and “writes” (or sells) a succession of one-month at-the-money covered call options on the Reference Index. The written covered call options on the Reference Index are held until expiration. The Reference Index is an equity benchmark which measures the performance of the small-capitalization sector of the U.S. equity market, as defined by FTSE Russell, the provider of the Reference Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 12.18%, while the Underlying Index decreased 11.63%. The Fund had a net asset value of \$25.18 per share on October 31, 2021 and ended the reporting period with a net asset value of \$19.55 per share on October 31, 2022.

During the reporting period, the highest returns came from Akerio Therapeutics, Inc. and Amylyx Pharmaceuticals, Inc., which returned 277.32% and 227.55%, respectively. The worst performers were Tricida, Inc. and Starr Group Holdings, Inc. which returned -96.56% and -95.44%, respectively.

The Fund invests in the underlying holdings of the Russell 2000 Index and “writes” or “sells” corresponding call options on the same index. During the reporting period, the Russia-Ukraine conflict, soaring oil prices, raging inflation, rising interest rates, and widespread COVID-19 pandemic-related lockdown measures by China slowed global economic growth, negatively impacting equity markets. This led to negative Fund returns. However, high volatility in the small-cap space and the broader market allowed the Fund to collect higher option premiums during the reporting period, limiting the Fund’s losses. Given the Fund’s options-writing strategy, it cedes potential profit when the Reference Index advances above the strike price of the index call option.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X Russell 2000 Covered Call ETF

Growth of a \$10,000 Investment (At Net Asset Value)

* The Fund commenced operations on April 17, 2019.

The Russell 2000 Index is an index measuring the performance of approximately 2,000 smallest-cap American companies in the Russell 3000 Index, which is made up of 3,000 of the largest U.S. stocks. It is a market-cap weighted index.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, it may be worth less than its original cost. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund's performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Performance figures for the periods shown may reflect contractual fee waivers and/or expense reimbursements. In the absence of fee waiver sand/or expense reimbursements (if applicable), returns would have been lower.

There are no assurances that the Fund will meet its stated objectives.

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares. See definition of comparative indices above.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited)
Global X Dow 30[®] Covered Call ETF

Global X Dow 30[®] Covered Call ETF

The Global X Dow 30[®] Covered Call ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the DJIA CBOE BuyWrite v2 Index (“Underlying Index”). The Fund is passively managed, and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index measures the performance of a covered call strategy that holds a theoretical portfolio of the underlying stocks of the Dow Jones Industrial Average[®] (the “Reference Index”) and “writes” (or sells) a succession of one-month at-the-money (“ATM”) covered call options on the Reference Index. The Underlying Index specifically reflects the performance of the component securities of the Reference Index, combined with written (sold) ATM call options corresponding to the value of the portfolio of stocks in the Reference Index.

From the inception of the Fund to period ended October 31, 2022 (the “reporting period”), the Fund decreased 2.77%, while the Underlying Index decreased 1.98%. The Fund had a net asset value of \$24.13 per share on February 23, 2022 and ended the reporting period with a net asset value of \$21.89 per share on October 31, 2022.

During the reporting period, the highest returns came from Chevron Corporation and Amgen Inc., which returned 64.35% and 34.96%, respectively. The worst performers were Salesforce, Inc. and Nike, Inc., which returned -45.75% and -44.07%, respectively.

The Fund invests in the Reference Index and “writes” or “sells” corresponding call options on the same index. Since its inception, the Fund has generated negative returns as investor concerns over rising interest rates, a consumer-spending downturn, and continued inflation led to a decline in equity markets, resulting in losses for the majority of the Reference Index’s holdings. However, by the end of the reporting period, developed markets began to recover, with the U.S. outperforming the rest of the world, and the majority of the Fund’s holdings posting gains, which attracted investors. High volatility in the equity market also allowed the Fund to collect higher option premiums. Given the Fund’s options-writing strategy, it cedes potential profit when the Reference Index advances above the strike price of the Fund’s corresponding index call option.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited)

Global X Dow 30® Covered Call ETF

Growth of a \$10,000 Investment

(At Net Asset Value)

* The Fund commenced operations on February 23, 2022.

The Dow Jones Industrial Average, Dow Jones, or simply the Dow, is a stock market index of 30 prominent companies listed on stock exchanges in the United States. The DJIA is one of the oldest and most commonly followed equity indexes.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, it may be worth less than its original cost. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund's performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Performance figures for the periods shown may reflect contractual fee waivers and/or expense reimbursements. In the absence of fee waiver sand/or expense reimbursements (if applicable), returns would have been lower.

There are no assurances that the Fund will meet its stated objectives.

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited)
Global X Nasdaq 100® Covered Call & Growth ETF

Global X Nasdaq 100® Covered Call & Growth ETF

The Global X NASDAQ 100® Covered Call & Growth ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Cboe NASDAQ-100® Half BuyWrite V2 Index (“Underlying Index”). The Fund is passively managed and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is a benchmark index that measures the performance of a theoretical portfolio that owns the portfolio of the stocks included in the NASDAQ-100® Index (the "Reference Index"), and “writes” (or sells) corresponding call options on approximately 50% of the value of the portfolio of stocks in the Reference Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 23.57%, while the Underlying Index decreased 23.16%. The Fund had a net asset value of \$33.09 per share on October 31, 2021 and ended the reporting period with a net asset value of \$22.80 per share on October 31, 2022.

During the reporting period, the highest returns came from Constellation Energy Corporation and Vertex Pharmaceuticals Inc., which returned 91.35% and 68.71%, respectively. The worst performers were DocuSign, Inc. and Okta, Inc., which returned -82.64% and -77.30%, respectively.

The Fund follows a “covered call” or “buy-write” strategy, buying stocks on the Reference Index and “writing” or “selling” corresponding call options on approximately 50% of the value of the portfolio of stocks on the Reference Index. During the reporting period, the Fund performed slightly better than Nasdaq-100® as technology focused and tech-adjacent companies dragged down the Reference Index. Furthermore, the Fund was heavily weighted in mega-cap technology stocks, which were negatively impacted by high-interest rates and rising fears of a global economic slowdown, resulting in negative returns for the Fund. However, when the market was volatile, the Fund collected higher levels of option premiums, offsetting some of the negative equity performance.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited)
Global X S&P 500® Covered Call & Growth ETF

Global X S&P 500® Covered Call & Growth ETF

The Global X S&P 500® Covered Call & Growth ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Cboe S&P 500® Half BuyWrite Index (“Underlying Index”). The Fund is passively managed and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is a benchmark index that measures the performance of a theoretical portfolio that owns the portfolio of the stocks included in the S&P 500® Index (the “Reference Index”), and “writes” (or sells) corresponding call options on approximately 50% of the value of the portfolio of stocks in the Reference Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 12.63%, while the Underlying Index decreased 12.20%. The Fund had a net asset value of \$31.83 per share on October 31, 2021 and ended the reporting period with a net asset value of \$25.47 per share on October 31, 2022.

During the reporting period, the highest returns came from Occidental Petroleum Corporation and Devon Energy Corporation, which returned 117.95% and 108.22%, respectively. The worst performers were Generac Holdings Inc. and Match Group, Inc., which returned -76.75% and -71.35%, respectively.

The Fund invests in stocks listed on the Reference Index and “writes” or “sells” corresponding call options on the same index. The Reference Index generated negative returns during the reporting period due to rising interest rates, and elevated market volatility gripped the global equity markets. This contributed to the Fund's negative performance. The Fund collected higher levels of option premiums when the market was volatile, offsetting some of the Fund’s equity losses. Given the Fund’s options-writing strategy, it cedes potential profit when the Reference Index advances above the strike price of the Fund's corresponding index call option.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Russell 2000 Covered Call & Growth ETF

Global X Russell 2000 Covered Call & Growth ETF

The Global X Russell 2000 Covered Call & Growth ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the CBOE Russell 2000 Half BuyWrite Index (“Underlying Index”). The Fund is passively managed and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index measures the performance of a covered call strategy that holds a theoretical portfolio of the underlying stocks of the Russell 2000 Index (the "Reference Index") and "writes" (or sells) a succession of one-month at-the-money covered call options on the Reference Index. The written covered call options on the Reference Index correspond to approximately 50% of the value of the portfolio of stocks in the Reference Index.

From the inception of the Fund to the period ended October 31, 2022 (the “reporting period”), the Fund increased 3.14%, while the Underlying Index increased 2.98%. The Fund had a net asset value of \$25.90 per share on October 04, 2022 and ended the reporting period with a net asset value of \$26.58 per share on October 31, 2022.

During the reporting period, the Vanguard Russell 2000 ETF, the only holding of the Fund, returned 4.19%.

The Fund invests in the underlying holdings of the Russell 2000 Index and “writes” or “sells” corresponding call options on the same index. During the reporting period, U.S. small cap stocks strongly rallied from a rebound in cyclical stocks, such as those within the Energy and Financials sectors, contributing to the Fund's positive performance. Since the Fund write covered calls on only half of its stock exposure, it was able to capture a portion of this upside from its Russell 2000 exposure via the Vanguard Russell 2000 ETF.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X SuperIncome™ Preferred ETF

Global X SuperIncome™ Preferred ETF

The Global X SuperIncome Preferred ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P Enhanced Yield North American Preferred Stock Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index tracks the performance of the highest yielding preferred securities in the United States and Canada, as determined by Standard & Poor’s Financial Services, LLC, a subsidiary of the McGraw-Hill Companies (“S&P”), the provider of the Underlying Index (“Index Provider”). The Underlying Index is comprised of preferred stocks that meet certain criteria relating to size, liquidity, issuer concentration and rating, maturity and other requirements, as determined by the Index Provider. The Underlying Index does not seek to directly reflect the performance of the companies issuing the preferred stock. The index is maintained by S&P.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 13.81%, while the Underlying Index decreased 13.43%. The Fund had a net asset value of \$11.94 per share on October 31, 2021 and ended the reporting period with a net asset value of \$9.67 per share on October 31, 2022.

During the reporting period, the highest returns came from Citigroup Capital XIII and AGNC Investment Corp, which returned 7.27% and 6.40%, respectively. The worst performers were Qurate Retail Inc. and Clarivate PLC, which returned -51.04% and -46.08%, respectively.

The Fund invests in preferred stock, which has some of the highest dividend yields in the United States and Canada. During the reporting period, high and persistent inflation induced the U.S. Federal Reserve and other central banks to raise interest rates, resulting in the Fund’s negative performance. Preferred stocks and the fixed-income market experienced a sell-off as interest rates rose, negatively impacting Fund performance. Fears about potential credit spread widening and default risk also affected performance of higher yielding preferred stocks. During the reporting period, the Fund had an approximate average sector exposure of 63.71% to Financials, 6.61% to Energy, and 5.22% to Health Care.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X Renewable Energy Producers ETF

Global X Renewable Energy Producers ETF

The Global X Renewable Energy Producers ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Indxx Renewable Energy Producers Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is designed to provide exposure to publicly traded companies that produce energy from renewable sources including wind, solar, hydroelectric, geothermal, and biofuels (including publicly traded companies that are formed to own operating assets that produce defined cash flows, as defined by Indxx LLC, the provider of the Underlying Index).

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 21.57%, while the Underlying Index decreased 21.30%. The Fund had a net asset value of \$16.82 per share on October 31, 2021 and ended the reporting period with a net asset value of \$13.05 per share on October 31, 2022.

During the reporting period, the highest returns came from Centrais Eletricas Brasileiras SA and Terna Energy S.A., which returned 61.25% and 41.95%, respectively. The worst performers were Azure Power Global Ltd and Gevo, Inc, which returned -75.98% and -68.88%, respectively.

The Fund generated negative returns over the reporting period as companies within the power sector were impacted by higher costs throughout the renewable energy value chains, supply chain challenges, and rising inflation. In addition, regulatory uncertainty within the U.S. solar power sector and permitting delays across Europe and the U.S. impacted renewables capacity and generation growth during the reporting period. These impacts outweighed the benefits of higher power prices and continued strong demand for renewable energy amid global concerns over climate change, energy security, and high fossil fuel prices. The enactment of the Inflation Reduction Act in the U.S. and the introduction of the REPowerEU plan in the European Union were two policy developments during the reporting period that may act as continued tailwinds for renewable energy development. Continued momentum for the development of a global green hydrogen industry could also continue to expand growth opportunities in renewable energy. Sector weightings of the Fund were reported to be the highest in Utilities, at 92.34%. Geographically, the Fund maintained an average allocation of 18.60% to the United States stocks, followed by Brazil (9.48%) and New Zealand (9.46%).

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X Renewable Energy Producers ETF

Growth of a \$10,000 Investment (At Net Asset Value)

* Fund commenced operations on May 27, 2015.

** Hybrid index performance reflects the performance of the Indxx Global YieldCo Index through November 18, 2018 and the Indxx YieldCo & Renewable Energy Income Index thereafter. Effective February 1, 2021, the name of the Underlying Index changed from Indxx YieldCo & Renewable Energy Income Index to the Indxx Renewable Energy Producers Index.

The MSCI ACWI (Net) (All Country World Index) Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, it may be worth less than its original cost. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund's performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Performance figures for the periods shown may reflect contractual fee waivers and/or expense reimbursements. In the absence of fee waiver and/or expense reimbursements (if applicable), returns would have been lower.

There are no assurances that the Fund will meet its stated objectives.

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X S&P 500[®] Catholic Values ETF

Global X S&P 500[®] Catholic Values ETF

The Global X S&P 500[®] Catholic Values ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P 500[®] Catholic Values Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index applies exclusion criteria to the constituents of the S&P 500[®] Index in order to create a benchmark aligned with Catholic values. These values are consistent with the Socially Responsible Investment Guidelines outlined by the United States Conference of Catholic Bishops (“USCCB”). The index is designed for investors who wish to track a benchmark that is consistent with USCCB guidelines.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 16.53%, while the Underlying Index decreased 16.34%. The Fund had a net asset value of \$57.22 per share on October 31, 2021 and ended the reporting period with a net asset value of \$47.19 per share on October 31, 2022.

During the reporting period, the highest returns came from Occidental Petroleum Corporation and Devon Energy Corporation, which returned 117% and 108%, respectively. The worst performers were Generac Holdings Inc and Meta Platforms Inc, which returned -76% and -71%, respectively.

The Fund provides exposure to companies within the S&P 500[®] Index whose business practices align with the investment guidelines set by the USCCB. As of October 31, 2022, the Fund had 441 equity holdings compared with the 503 holdings of the S&P 500[®] Index. To mitigate the potential performance differences between the S&P 500[®] Index and the Fund, the Fund’s sector exposures are reweighted to align with those of the S&P 500[®] Index every quarter. In November 2021, the USCCB updated new socially responsible investing guidelines for Catholic investing for the first time since 2003. The revised USCCB guidelines add restrictions to previously excluded themes such as certain healthcare practices, adult entertainment, controversial weapons, gambling, tobacco, and recreational cannabis.

The Fund’s underperformance during the reporting period largely resulted from broader market challenges due to economic pressures from rising interest rates in the U.S, high inflation, and increased recessionary fears among investors. Information Technology was also the largest sector of the Fund, which detracted from performance as the sector experienced reduced profitability during the reporting period, resulting in cost-cutting, staff layoffs, and hiring freezes. During the reporting period, Information Technology had the highest average sector weighting of 27.83% in the Fund, followed by Health Care at 13.53% and Consumer Discretionary at 11.84%.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X S&P 500® Catholic Values ETF

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares.

See definition of comparative indices on the previous page.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X S&P Catholic Values Developed ex-US ETF

Global X S&P Catholic Values Developed ex-US ETF

The Global X S&P Catholic Values Developed ex-U.S. ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the S&P Developed Ex-U.S. Catholic Values Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is based on the S&P EPAC ex-Korea Large Cap Index (the “Reference Index”), a benchmark index that provides exposure to the large capitalization segment of developed markets within the Europe and Asia Pacific regions, excluding Korea. The Underlying Index excludes from the Reference Index certain activities that are not aligned with the Responsible Investment Guidelines of the U.S. Conference of Catholic Bishops (“USCCB”). The Underlying Index is designed for investors who do not want to breach religious norms in their passive investing strategies.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 26.11%, while the Underlying Index decreased 25.98%. The Fund had a net asset value of \$32.80 per share on October 31, 2021 and ended the reporting period with a net asset value of \$23.30 per share on October 31, 2022.

During the reporting period, the highest returns came from Equinor ASA and Bezeq Group, which returned 49.83% and 45.33%, respectively. The worst performers were Sea Ltd and Kornit Digital Ltd, which returned -85.48% and -83.97%, respectively.

The Fund provides exposure to companies in developed markets outside of the U.S., whose business practices align with the investment guidelines set by the USCCB. To mitigate the potential performance differences between the Fund and traditional International equity benchmarks, the Fund’s sector exposures are reweighted to align with those of the S&P EPAC ex-Korea Large Cap Index on a quarterly basis. In November 2021, the USCCB updated new socially responsible investing guidelines for Catholic investing for the first time since 2003. The revised USCCB guidelines add restrictions to previously excluded themes such as certain healthcare practices, adult entertainment, controversial weapons, gambling, tobacco, and recreational cannabis.

The Fund’s underperformance during the reporting period resulted from multiple global challenges including the Russia-Ukraine War, European energy crisis, rising inflation, and stringent COVID-19 pandemic-related reopening policies in certain regions. The global equity market selloff also put pressure on broader markets.

During the reporting period, Financials had the highest average weighting of 17.85% in the Fund, followed by Industrials at 14.63% and Health Care at 13.79%. Geographically, the Fund had an approximate average exposure of 27.61% to Japan, followed by the United Kingdom (11.83%) and Australia (10.91%).

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited)

Global X Guru® Index ETF

Global X Guru® Index ETF

The Global X Global X Guru® Index ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Guru Index (“Underlying Index”). The Fund is passively managed, which means the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index is comprised of the top U.S. listed equity positions reported on Form 13F by a select group of entities characterized as hedge funds by Solactive AG, the provider of the Underlying Index (“Index Provider”). Hedge funds are selected from a pool of thousands of privately offered pooled investment vehicles based on the size of their reported equity holdings and the efficacy of replicating their publicly disclosed positions. Additional filters are applied to eliminate hedge funds that have high turnover rates for equity holdings. Only hedge funds with concentrated top holdings are included in the selection process. Once the hedge fund pool has been determined, the Index Provider utilizes 13F filings to compile the top stock holding from each of these hedge funds. The stocks are screened for liquidity and equal weighted.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 33.28%, while the Underlying Index decreased 33.05%. The Fund had a net asset value of \$50.24 per share on October 31, 2021 and ended the reporting period with a net asset value of \$33.48 per share on October 31, 2022.

During the reporting period, the highest returns came from Texas Pacific Land Corporation and Chesapeake Energy Corporation, which returned 84.38% and 60.26%, respectively. The worst performers were GDS Holdings Ltd and Unity Software, Inc, which returned -85.47% and -80.5%, respectively.

The Fund’s investments are among the highest-conviction U.S.-listed equity positions reported on Form 13F by major hedge funds. During the reporting period, the Fund delivered negative performance and trailed the S&P 500® Index. Quarterly rebalancing results in dynamic exposures, which can change significantly through the year. The Fund's performance was impacted by its exposure to the Technology sector and Consumer Discretionary sector, which were affected by rising interest rates, increasing the cost of capital. The Fund’s underperformance relative to the S&P 500® Index was primarily the result of limited exposure in the Energy sector which fared well in the reporting period.

AVERAGE ANNUAL TOTAL RETURN FOR THE YEAR ENDED OCTOBER 31, 2022

GLOBAL X

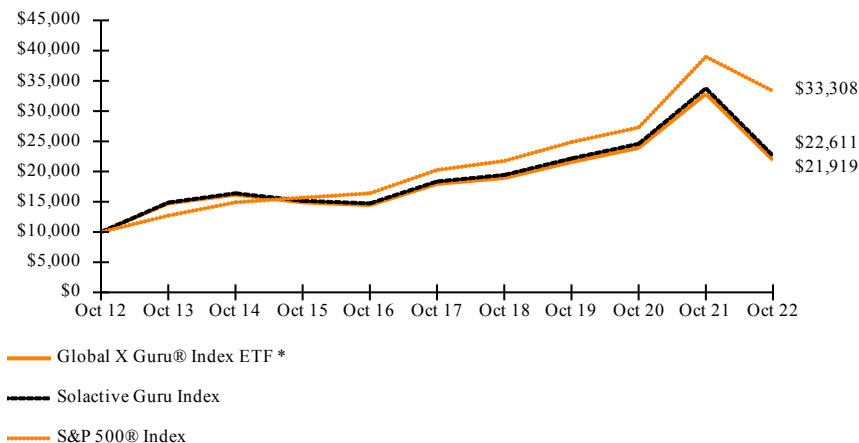

by Mirae Asset

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited)

Global X S&P 500[®] Tail Risk ETF

Global X S&P 500[®] Tail Risk ETF

The Global X S&P 500[®] Tail Risk ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Cboe S&P 500[®] Tail Risk Index (“Underlying Index”). The Fund is passively managed, and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index measures the performance of a risk management strategy that holds the underlying stocks of the S&P 500[®] Index and applies a protective put strategy (i.e. long (purchased) put options) on the S&P 500[®] Index. The Underlying Index specifically reflects the performance of the component securities of the S&P 500[®] Index, combined with a long position in 10% out-of-the-money (“OTM”) put options that correspond to the value of the portfolio of stocks in the S&P 500[®] Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 13.98%, while the Underlying Index decreased 13.36%. The Fund had a net asset value of \$27.72 per share on October 31, 2021 and ended the reporting period with a net asset value of \$23.21 per share on October 31, 2022.

During the reporting period, the highest returns came from Occidental Petroleum Corporation and Devon Energy Corporation, which returned 117.95% and 108.22%, respectively. The worst performers were Generac Holdings Inc. and Match Group, Inc, which returned -76.75% and -71.35%, respectively.

The Fund invests in the stocks in the S&P 500[®] Index, while buying OTM put options on the S&P 500[®] Index. While the strategy provides uncapped growth potential, it offers a measure of downside risk, mitigating significant selloffs of greater than approximately -10% between the purchase of the put option and its expiration in three months. During the reporting period, the Fund performed better than the S&P 500[®] Index, which experienced severe downward market conditions, due to its put option hedging strategy. Furthermore, growth stocks in both the Technology and Communication Services Sectors underperformed due to rising interest rates, contributing to the Fund’s negative returns.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X S&P 500® Tail Risk ETF

Growth of a \$10,000 Investment (At Net Asset Value)

* The Fund commenced operations on August 25, 2021.

The S&P 500® Index is a market capitalization weighted composite index of 500 large capitalization U.S. companies.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, it may be worth less than its original cost. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund's performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Performance figures for the periods shown may reflect contractual fee waivers and/or expense reimbursements. In the absence of fee waiver sand/or expense reimbursements (if applicable), returns would have been lower.

There are no assurances that the Fund will meet its stated objectives.

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares.

See definition of comparative indices above.

by Mirae Asset

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X S&P 500® Risk Managed Income ETF

Global X S&P 500® Risk Managed Income ETF

The Global X S&P 500® Risk Managed Income ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Cboe S&P 500 Risk Managed Income Index (“Underlying Index”). The Fund is passively managed and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index measures the performance of a risk managed income strategy that holds the underlying stocks of the S&P 500® Index (the "Reference Index") and applies an options collar strategy which is a mix of short (sold) call options and long (purchased) put options on the Reference Index. The Underlying Index specifically reflects the performance of the component securities of the Reference Index, combined with a long position in the 5% out-of-the-money (“OTM”) put options and a short position in at-the-money (“ATM”) call options, each corresponding to the value of the portfolio of stocks in the Reference Index. The options collar seeks to generate a net-credit, meaning that the premium received from the sale of the call options will be greater than the premium paid when buying the put options.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 12.39%, while the Underlying Index decreased 12.21%. The Fund had a net asset value of \$26.83 per share on October 31, 2021 and ended the reporting period with a net asset value of \$21.05 per share on October 31, 2022.

During the reporting period, the highest returns came from Occidental Petroleum Corporation and Devon Energy Corporation, which returned 117.95% and 108.22%, respectively. The worst performers were Generac Holdings Inc. and Match Group, Inc., which returned -76.75% and -71.35%, respectively.

The Fund’s options collar strategy tends to produce higher yields in volatile and uncertain times, allowing the Fund to collect higher option premiums and mitigate risks arising from a major market selloff through the purchase of protective puts. During the reporting period, rising 10-year treasury yields pressured growth stocks, weighing on the Reference Index. This resulted in the Fund's negative performance. However, the Fund's losses were mitigated because of volatility in equities markets; as volatility increases, option premiums become more expensive, resulting in a greater net credit from options premiums when selling the ATM call option and buying the OTM put option.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited)

Global X S&P 500® Collar 95-110 ETF

Global X S&P 500® Collar 95-110 ETF

The Global X S&P 500® Collar 95-110 ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Cboe S&P 500® 3-Month Collar 95-110 Index (“Underlying Index”). The Fund is passively managed and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index measures the performance of a risk management strategy that holds the underlying stocks of the S&P 500® Index (the "Reference Index") and applies an options collar strategy with a mix of short (sold) call options and long (purchased) put options on Reference Index. The Underlying Index specifically reflects the performance of the component securities of the Reference Index, combined with a long position in 5% out-of-the-money (“OTM”) put options and a short position in 10% OTM call options, each corresponding to the value of the portfolio of stocks in the Reference Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 9.40%, while the Underlying Index decreased 9.05%. The Fund had a net asset value of \$27.57 per share on October 31, 2021 and ended the reporting period with a net asset value of \$24.47 per share on October 31, 2022.

During the reporting period, the highest returns came from Occidental Petroleum Corporation and Devon Energy Corporation, which returned 117.95% and 108.22%, respectively. The worst performers were Generac Holdings Inc. and Match Group, Inc., which returned -76.75% and -71.35%, respectively.

The Fund invests in the stocks in the Reference Index, while applying a net-debit options collar strategy, meaning the cost of the purchased put option is expected to exceed the premiums received from selling the call option. The strategy is intended to invest in a diverse basket of U.S. equities while capping potential gains at 10% over the three-month option period and limiting losses to 5% over the same period. The goal of this strategy is to strike a balance between limiting the downside and retaining upside potential while keeping the strategy affordable. During the reporting period, rising inflation, interest rate increases by the U.S. Federal Reserve and fears of a recession led investors to shift away from equities in favor of other asset classes, contributing to the Fund's negative returns.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X S&P 500[®] Collar 95-110 ETF

Growth of a \$10,000 Investment (At Net Asset Value)

* The Fund commenced operations on August 25, 2021.

The S&P 500[®] Index is a market capitalization weighted composite index of 500 large capitalization U.S. companies.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, it may be worth less than its original cost. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund's performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Performance figures for the periods shown may reflect contractual fee waivers and/or expense reimbursements. In the absence of fee waiver sand/or expense reimbursements (if applicable), returns would have been lower.

There are no assurances that the Fund will meet its stated objectives.

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares.

See definition of comparative indices above.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X NASDAQ 100® Tail Risk ETF

Global X NASDAQ 100® Tail Risk ETF

The Global X Nasdaq 100® Tail Risk ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Nasdaq-100 Quarterly Protective Put 90 Index (“Underlying Index”). The Fund is passively managed and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index measures the performance of a risk management strategy that holds the underlying stocks of the NASDAQ 100® Index (the "Reference Index") and applies a protective put strategy with long (purchased) put options on the Reference Index. The Underlying Index specifically reflects the performance of the component securities of the Reference Index, combined with a long position in 10% out-of-the-money (“OTM”) put options that correspond to the value of the portfolio of stocks in the Reference Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 23.90%, while the Underlying Index decreased 23.07%. The Fund had a net asset value of \$25.59 per share on October 31, 2021 and ended the reporting period with a net asset value of \$19.08 per share on October 31, 2022.

During the reporting period, the highest returns came from Constellation Energy Corporation and Vertex Pharmaceuticals Inc., which returned 91.35% and 68.71%, respectively. The worst performers were DocuSign, Inc. and Okta, Inc., which returned -82.64% and -77.3%, respectively.

The Fund invests in the stocks in the Reference Index, while buying OTM put options on the same index. While the strategy provides uncapped growth potential, it offers a measure of downside risk, mitigating significant selloffs of greater than approximately -10% between the purchase of the put option and its expiration in three months. Tail risk strategies can mitigate potential downside risks while helping investors participate in rising markets. During the reporting period, the Fund performed better than the Reference Index as market-leading technology and tech-adjacent companies dragged down Reference Index in severe macroeconomic conditions. Nonetheless, the Fund suffered negative returns during the reporting period, as the technology-centric companies of the Reference Index generally suffered increased losses against the rest of the market due to rising interest rates and investor fears of a global economic slowdown.

AVERAGE ANNUAL TOTAL RETURN FOR THE YEAR ENDED OCTOBER 31, 2022			
One Year Return		Annualized Inception to Date*	
Net Asset Value	Market Price	Net Asset Value	Market Price
-23.90%	-23.76%	-19.38%	-19.20%
-23.07%	-23.07%	-18.66%	-18.66%
-27.46%	-27.46%	-21.69%	-21.69%

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X NASDAQ 100® Tail Risk ETF

Growth of a \$10,000 Investment (At Net Asset Value)

* The Fund commenced operations on August 25, 2021.

The Nasdaq-100® Index includes 100 of the largest domestic and international non-financial companies listed on The Nasdaq Stock Market based on market capitalization.

The performance data quoted herein represents past performance and the return and value of an investment in the Fund will fluctuate so that, when redeemed, it may be worth less than its original cost. Past performance is no guarantee of future performance and should not be considered as a representation of the future results of the Fund. The Fund's performance assumes the reinvestment of all dividends and all capital gains. Index returns assume reinvestment of dividends and, unlike the Fund's returns, do not reflect any fees or expenses. If such fees and expenses were included in the index returns, the performance would have been lower. Please note that one cannot invest directly in an unmanaged index. Performance figures for the periods shown may reflect contractual fee waivers and/or expense reimbursements. In the absence of fee waiver sand/or expense reimbursements (if applicable), returns would have been lower.

There are no assurances that the Fund will meet its stated objectives.

The Fund's holdings and allocations are subject to change and should not be considered recommendations to buy individual securities.

The graph and table do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption or sale of Fund shares.

See definition of comparative indices above.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited) Global X NASDAQ 100® Risk Managed Income ETF

Global X NASDAQ 100® Risk Managed Income ETF

The Global X Nasdaq 100® Risk Managed Income ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Nasdaq-100® Monthly Net Credit Collar 95-100 Index (“Underlying Index”). The Fund is passively managed and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index measures the performance of a risk managed income strategy that holds the underlying stocks of the NASDAQ 100® Index (the “Reference Index”) and applies an options collar strategy consisting of a mix of short (sold) call options and long (purchased) put options on the Reference Index. The Underlying Index specifically reflects the performance of the component securities of the Reference Index, combined with a long position in the 5% out-of-the-money (“OTM”) put options and a short position in at-the-money (“ATM”) call options, each corresponding to the value of the portfolio of stocks in the Reference Index. The options collar seeks to generate a net-credit, meaning that the premium received from the sale of the call options will be greater than the premium paid when buying the put options.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 17.24%, while the Underlying Index decreased 17.12%. The Fund had a net asset value of \$24.12 per share on October 31, 2021 and ended the reporting period with a net asset value of \$18.17 per share on October 31, 2022.

During the reporting period, the highest returns came from Constellation Energy Corporation and Vertex Pharmaceuticals Inc., which returned 91.35% and 68.71%, respectively. The worst performers were DocuSign, Inc. and Okta, Inc., which returned -82.64% and -77.30%, respectively.

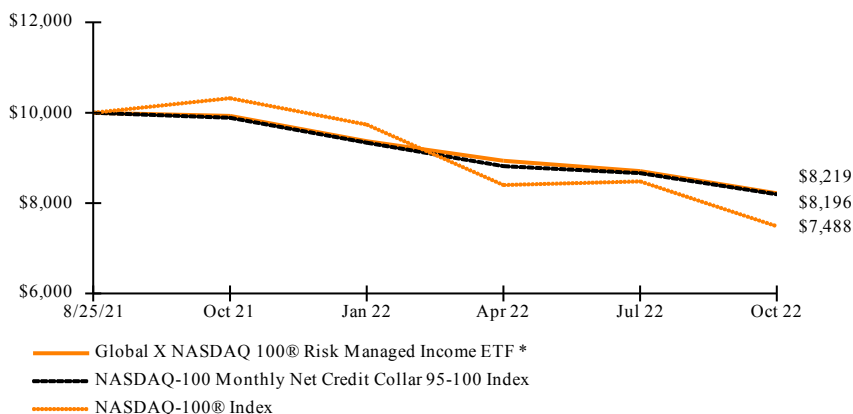

The Fund's options collar strategy seeks to generate higher yields in volatile and uncertain times by collecting option premiums and mitigating risks associated with a major market selloff through the purchase of protective puts. As volatility rises, option premiums rise in price, resulting in a higher net credit when selling ATM call options and buying OTM put options. During the reporting period, the Fund generated negative returns as rising bond yields affected technology and growth stocks, to which the Reference Index is heavily exposed. However, the net positive premiums generated by the Fund helped offset some of the losses.

AVERAGE ANNUAL TOTAL RETURN FOR THE YEAR ENDED OCTOBER 31, 2022

MANAGEMENT DISCUSSION OF FUND PERFORMANCE (unaudited)
Global X NASDAQ 100® Collar 95-110 ETF

Global X NASDAQ 100® Collar 95-110 ETF

The Global X Nasdaq 100® Collar 95-110 ETF (“Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Nasdaq-100® Quarterly Collar 95-110 Index (“Underlying Index”). The Fund is passively managed and the investment adviser does not attempt to take defensive positions in declining markets. The Fund generally seeks to fully replicate the Underlying Index.

The Underlying Index measures the performance of a risk management strategy that holds the underlying stocks of the NASDAQ 100® Index (the "Underlying Index") and applies an options collar strategy with a mix of short (sold) call options and long (purchased) put options on the Reference Index. The Underlying Index specifically reflects the performance of the component securities of the Reference Index, combined with a long position in 5% out-of-the-money (“OTM”) put options and a short position in 10% OTM call options, each corresponding to the value of the portfolio of stocks in the Reference Index.

For the 12-month period ended October 31, 2022 (the “reporting period”), the Fund decreased 13.19%, while the Underlying Index decreased 12.05%. The Fund had a net asset value of \$25.78 per share on October 31, 2021 and ended the reporting period with a net asset value of \$22.00 per share on October 31, 2022.

During the reporting period, the highest returns came from Constellation Energy Corporation and Vertex Pharmaceuticals Inc., which returned 91.35% and 68.71%, respectively. The worst performers were DocuSign, Inc. and Okta, Inc., which returned -82.64% and -77.3%, respectively.

The Fund invests in stocks in the Reference Index using a net-debit options collar strategy, which means that the cost of the purchased put option is expected to exceed the premiums received from selling the call option. Furthermore, the strategy is intended to invest in a tech-heavy basket of US equities, with a 10% upside cap and a 5% downside limit over a three-month option horizon. The goal of this strategy is to strike a balance between limiting downside risk and retaining upside potential. During the reporting period, high inflation, rate hikes by the U.S. Federal Reserve, and a strong U.S. dollar made it more difficult for tech companies to grow sales as digital advertising and other revenue streams slowed. In turn, technology stocks suffered, contributing to the Fund's negative returns.

‡ Real Estate Investment Trust

(A) Variable or floating rate security. The rate shown is the effective interest rate as of period end. The rates on certain securities are not based on published reference rates and spreads and are either determined by the issuer or agent based on current market conditions; by using a formula based on the rates of underlying loans; or by adjusting periodically based on prevailing interest rates.

(B) This security or a partial position of this security is on loan at October 31, 2022.

(C) Security was purchased with cash collateral held from securities on loan.

(D) The rate reported on the Schedule of Investments is the 7-day effective yield as of October 31, 2022.

The following is a summary of the level of inputs used as of October 31, 2022, in valuing the Fund's investments carried at value:

‡ Real Estate Investment Trust

(A) Level 3 security in accordance with fair value hierarchy.

(B) There is currently no stated interest rate.

The following is a summary of the level of inputs used as of October 31, 2022, in valuing the Fund's investments carried at value:

<i>Investments in Securities</i>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3⁽¹⁾</u>	<u>Total</u>
Common Stock	\$ 5,556,048	\$ —	\$ 1,278	\$ 5,557,326
Preferred Stock	29,714	—	—	29,714
<i>Total Investments in Securities</i>	<u>\$ 5,585,762</u>	<u>\$ —</u>	<u>\$ 1,278</u>	<u>\$ 5,587,040</u>

(1) A reconciliation of Level 3 investments and disclosures of significant unobservable inputs are presented when the Fund has a significant amount of Level 3 investments at the end of the period in relation to Net Assets. Management has concluded that Level 3 investments are not material in relation to Net Assets.

Amounts designated as “—” are \$0 or have been rounded to \$0.

See "Glossary" for abbreviations.

* Per share data calculated using average shares method.

** Total Return is for the period indicated and has not been annualized. The return shown does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

†† Portfolio turnover rate is for the period indicated and periods of less than one year have not been annualized. Excludes effect of in-kind transfers.

- (1) Per share amounts have been adjusted for a 1 for 3 reverse share split on December 19, 2022 (See Note 11 in the Notes to Financial Statements.)
- (2) The financial statements include the financial information of the Predecessor Funds through December 31, 2018 (See Note 1 in Notes to Financial Statements). As a result of the Reorganization, the Fund assumed the performance and accounting history of the Predecessor Fund. Accordingly, performance figures for the Fund for periods prior to the date of the Reorganization represent the performance of the Predecessor Fund.
- (3) Excluding broker fees on written options, the ratio of expenses to average net assets would have been 0.60% and 0.60% for the year ended October 31, 2020 and October 31, 2019, respectively. The ratio of Expenses to Average Net Assets includes the effect of a waiver. If these offsets were excluded, the ratio would have been 0.60% and 0.60% for the year ended October 31, 2020 and year ended October 31, 2019.
- (4) Includes excise tax. If this excise expense was not included, the ratio would have been 0.60%.
- (5) Excluding broker fees on written options, the ratio of expenses to average net assets would have been 0.64% and 0.65% for the year ended October 31, 2020 and year ended October 31, 2019, respectively. The ratio of Expenses to Average Net Assets includes the effect of a waiver. If these offsets were excluded, the ratio would have been 0.64% and 0.65% for the year ended October 31, 2020 and year ended October 31, 2019.

Amounts designated as “—” are either \$0 or have been rounded to \$0.

The accompanying notes are an integral part of the financial statements.

1. ORGANIZATION

Global X Funds (the "Trust") is a Delaware statutory trust formed on March 6, 2008. The Trust is registered under the Investment Company Act of 1940, as amended, as an open end management investment company. As of October 31, 2022, the Trust had one hundred and seven portfolios, ninety-seven of which were operational. The financial statements herein and the related notes pertain to the Global X Social Media ETF, Global X Lithium & Battery Tech ETF, Global X Disruptive Materials ETF, Global X E-commerce ETF, Global X Emerging Markets Internet & E-commerce ETF, Global X SuperDividend® ETF, Global X SuperDividend® U.S. ETF, Global X MSCI SuperDividend® EAFE ETF, Global X MSCI SuperDividend® Emerging Markets ETF, Global X SuperDividend® REIT ETF, Global X NASDAQ 100® Covered Call ETF, Global X S&P 500® Covered Call ETF, Global X Russell 2000 Covered Call ETF, Global X Dow 30® Covered Call ETF, Global X Nasdaq 100® Covered Call & Growth ETF, Global X S&P 500® Covered Call & Growth ETF, Global X Russell 2000 Covered Call & Growth ETF, Global X SuperIncome™ Preferred ETF, Global X Renewable Energy Producers ETF, Global X S&P 500® Catholic Values ETF, Global X S&P Catholic Values Developed ex-U.S. ETF, Global X Guru® Index ETF, Global X S&P 500® Tail Risk ETF, Global X S&P 500® Risk Managed Income ETF, Global X S&P 500® Collar 95-110 ETF, Global X NASDAQ 100® Tail Risk ETF, Global X NASDAQ 100® Risk Managed Income ETF and Global X NASDAQ 100® Collar 95-110 ETF (each a "Fund", collectively, the "Funds").

Each Fund (except the Global X SuperDividend® ETF, Global X SuperDividend® U.S. ETF, Global X MSCI SuperDividend® Emerging Markets ETF, Global X MSCI SuperDividend® EAFE ETF, Global X SuperDividend® REIT ETF, Global X SuperIncome™ Preferred ETF, Global X Guru® Index ETF, Global X S&P 500® Catholic Values ETF, Global X Russell 2000 Covered Call ETF, Global X Dow 30® Covered Call ETF, Global X S&P 500® Covered Call ETF, Global X S&P 500® Covered Call & Growth ETF, Global X S&P 500® Tail Risk ETF, Global X S&P 500® Risk Managed Income ETF, and Global X S&P 500® Collar 95-110 ETF) has elected non-diversified status.

Global X Disruptive Materials ETF commenced operations on January 24, 2022.

Global X Dow 30® Covered Call ETF commenced operations on February 23, 2022.

Global X Russell 2000 Covered Call & Growth ETF commenced operations on October 4, 2022.

On December 24, 2018, the shareholders of the Horizons NASDAQ 100® Covered Call ETF and Horizons S&P 500® Covered Call ETF (each, a "Predecessor Fund" and together, the "Predecessor Funds") approved a proposed agreement and plan of reorganization (the "Reorganization") that provided for (a) the transfer of all the assets and assumption of certain of the liabilities of each Predecessor Fund to the Global X Nasdaq 100® Covered Call ETF and the Global X S&P 500® Covered Call ETF (together, the "Successor Funds"), respectively; (b) the issuance of shares of the Successor Fund to the shareholders of the

1. ORGANIZATION (continued)

corresponding Predecessor Fund; and (c) the liquidation and termination of the Predecessor Funds. The effective date of the Reorganization of each Predecessor Fund was December 24, 2018. The Successor Funds had no operations prior to the Reorganization. The Predecessor Funds had substantially similar investment objectives, investment strategies, policies and restrictions as those of the Successor Funds. The financial statements and financial highlights include the financial information of the Predecessor Funds through December 21, 2018.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies followed by the Funds:

USE OF ESTIMATES – The Funds are investment companies that apply the accounting and reporting guidance issued in Topic 946 by the U.S. Financial Accounting Standards Board. The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could materially differ from those estimates.

RETURN OF CAPITAL ESTIMATES – Distributions received by the Funds from underlying master limited partnership ("MLP") and real estate investment trust ("REIT") investments generally are comprised of income and return of capital. The Funds record investment income and return of capital based on estimates made at the time such distributions are received. Such estimates are based on historical information available from the MLPs, REITs and other industry sources. These estimates may subsequently be revised based on information received from the MLPs and REITs after their tax reporting periods are concluded.

MLPs – Certain Funds may invest in MLPs. MLPs are publicly traded partnerships engaged in the transportation, storage and processing of minerals and natural resources. By confining their operations to these specific activities, their interests, or units, are able to trade on public securities exchanges exactly like the shares of a corporation, without entity level taxation. To qualify as an MLP and to not be taxed as a corporation, a partnership must receive at least 90% of its income from qualifying sources as set forth in Section 7704(d) of the Internal Revenue Code of 1986, as amended (the "Code"). These qualifying sources include natural resource-based activities such as the processing, transportation and storage of mineral or natural resources. MLPs generally have two classes of owners: the general partner and limited partners. The general partner of an MLP is typically owned by a major energy company, an investment fund, the direct management of the MLP, or is an entity owned by one or more of such parties. The general partner may be structured as a private or publicly traded corporation or other entity.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

The general partner typically controls the operations and management of the MLP through an up to 2% equity interest in the MLP plus, in many cases, ownership of common units and subordinated units.

Limited partners typically own the remainder of the partnership through ownership of common units, and have a limited role in the partnership's operations and management. MLPs are typically structured such that common units and general partner interests have first priority to receive quarterly cash distributions up to an established minimum amount ("minimum quarterly distributions" or "MQD"). Common and general partner interests also accrue arrearages in distributions to the extent the MQD is not paid. Once common and general partner interests have been paid, subordinated units receive distributions of up to the MQD; however, subordinated units do not accrue arrearages. Distributable cash in excess of the MQD is paid to both common and subordinated units and is distributed to both common and subordinated units generally on a pro rata basis. The general partner is also eligible to receive incentive distributions if the general partner operates the business in a manner which results in distributions paid per common unit surpassing specified target levels. As the general partner increases cash distributions to the limited partners, the general partner receives an increasingly higher percentage of the incremental cash distributions.

SECURITY VALUATION - Securities listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on the NASDAQ Stock Market ("NASDAQ")), including securities traded over the counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded (or at approximately 4:00 pm Eastern Standard Time if a security's primary exchange is normally open at that time), or, if there is no such reported sale, at the most recent mean between the quoted bid and asked prices, which approximates fair value (absent both bid and asked prices on such exchange, the bid price may be used).

For securities traded on NASDAQ, the NASDAQ official closing price will be used. If available, debt securities are priced based upon valuations provided by independent, third-party pricing agents. Such values generally reflect the last reported sales price if the security is actively traded. The third-party pricing agents may also value debt securities at an evaluated bid price by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Debt obligations with remaining maturities of sixty days or less may be valued at their amortized cost, which approximates market value. The prices for foreign securities are reported in local currency and converted to U.S. dollars using currency exchange rates as of the reporting date. The exchange rates used by the Trust for valuation are captured as of the New York or London close each day. Prices for most securities held in the Funds are provided daily by recognized independent pricing agents. If a security price cannot be obtained from an independent, third-party pricing agent, the Funds seek to obtain a bid price from at least one independent broker.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Options traded on an exchange will be valued at the mean of the bid and ask quotations for the current day at the close of the market. If either the bid or the ask is not available, the last closing price will be used.

Securities for which market prices are not "readily available" are valued in accordance with fair value procedures (the "Fair Value Procedures") established by Global X Management Company LLC, the Funds' investment adviser (the "Adviser"), and approved by the Funds' Board of Trustees (the "Board"). Pursuant to Rule 2a-5 under the 1940 Act, the Board has designated the Adviser as the "valuation designee" to determine the fair value of securities and other instruments for which no readily available market quotations are available. The Fair Value Procedures are implemented through a fair value committee (the "Committee") of the Adviser. Some of the more common reasons that may necessitate that a security be valued using the Fair Value Procedures include: the security's trading has been halted or suspended; the security has been de-listed from its primary trading exchange; the security's primary trading market is temporarily closed at a time when, under normal conditions, it would be open; the security has not been traded for an extended period of time; the security's primary pricing source is not able or willing to provide a price; or trading of the security is subject to local government-imposed restrictions. In addition, the Funds may fair value a security if an event that may materially affect the value of the Funds' security that is traded outside the United States (a "Significant Event") has occurred between the time of the security's last close and the time that each Fund calculates its net asset value ("NAV"). A Significant Event may relate to a single issuer or to an entire market sector. Events that may be Significant Events include: government actions, natural disasters, armed conflict, acts of terrorism and significant market fluctuations. If the Adviser becomes aware of a Significant Event that has occurred with respect to a security or group of securities after the closing of the exchange or market on which the security or securities principally trade, but before the time at which the Funds calculate their NAVs, it may request that a Committee meeting be called. When a security is valued in accordance with the Fair Value Procedures, the Committee will determine the value after taking into consideration all relevant information reasonably available to the Committee.

In accordance with the authoritative guidance on fair value measurements and disclosure under U.S. GAAP, the Funds disclose the fair value of their investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Funds have the ability to access at the measurement date

Level 2 – Other significant observable inputs (including quoted prices in non-active markets, quoted prices for similar investments, fair value of investments for which the Funds have the ability to fully redeem tranches at NAV as of the measurement date or within the near term, and short-term investments valued at amortized cost)

Level 3 – Significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments, and fair value of investments for which the Funds do not have the ability to fully redeem tranches at NAV as of the measurement date or within the near term)

Investments are classified within the level of the lowest significant input considered in determining fair value. Investments classified within Level 3 whose fair value measurement considers several inputs may include Level 1 or Level 2 inputs as components of the overall fair value measurement.

For the year ended October 31, 2022, there have been no significant changes to the Funds' fair valuation methodologies.

The unobservable inputs used to determine fair value of Level 3 assets may have similar or diverging impacts on valuation. Significant increases and decreases in these inputs in isolation and interrelationships between those inputs could result in significantly higher or lower fair value measurement.

DUE TO/FROM BROKERS – Due to/from brokers includes cash and collateral balances with the Funds' clearing brokers or counterparties as of October 31, 2022. The Funds continuously monitor the credit standing of each broker or counterparty with whom they conduct business. In the event a broker or counterparty is unable to fulfill its obligations, the Funds would be subject to counterparty credit risk.

REPURCHASE AGREEMENTS - Securities pledged as collateral for repurchase agreements by BNP Paribas are held by Brown Brothers Harriman & Co. ("BBH") or the Bank of New York Mellon ("BNY Mellon"), as appropriate, in their roles as Custodian to respective Funds (each, a "Custodian" and together, the "Custodians"), and are designated as being held on each Fund's behalf by the Custodian under a book-entry system. Each Fund monitors the adequacy of the collateral on a daily basis and can require the seller to

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

October 31, 2022

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

provide additional collateral in the event the market value of the securities pledged falls below the carrying value of the repurchase agreement, including accrued interest.

It is the Funds' policy to only enter into repurchase agreements with banks and other financial institutions which are deemed by the Adviser to be creditworthy. The Funds bear the risk of loss in the event that the counterparty to a repurchase agreement defaults on its obligations, and the Funds are prevented from exercising their rights to dispose of the underlying securities received as collateral and the risk of a possible decline in the value of the underlying securities during the period. For financial statement purposes, the Funds record the securities lending collateral (included in repurchase agreements, at value or restricted cash) as an asset and the obligation to return securities lending collateral as a liability on the Statements of Assets and Liabilities.

Repurchase agreements are entered into by the Funds under Master Repurchase Agreements ("MRA") which permit the Funds, under certain circumstances, including an event of default (such as bankruptcy or insolvency), to offset payables and/or receivables under an MRA with collateral held and/or posted to the counterparty and create one single net payment due to or from the Funds.

As of October 31, 2022, the open repurchase agreements by counterparty which are subject to an MRA on a net payment basis are as follows:

	Repurchase Agreements*	Fair Value of Non-cash Collateral Received ⁽¹⁾	Cash Collateral Received	Net Amount ⁽²⁾
Global X Social Media ETF				
BNP Paribas	\$512,797	\$512,797	\$-	\$-

* Repurchase agreements with an overnight and continuous maturity.

(1) Excess collateral received is not presented in the table above. Please refer to the Schedules of Investments for the market value of the collateral received for each Fund.

(2) Net Amount represents the net amount receivable due from the counterparty in the event of default.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

FEDERAL INCOME TAXES – It is each Fund’s intention to qualify, or continue to qualify, as a regulated investment company for Federal income tax purposes by complying with the appropriate provisions of Subchapter M of the Code. Accordingly, no provisions for Federal income taxes have been made in the financial statements except as described below.

The Funds evaluate tax positions taken or expected to be taken in the course of preparing the Funds’ tax returns to determine whether it is "more-likely-than-not" (i.e., greater than 50 percent) that each tax position will be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. The Funds did not record any tax positions in the current period; however, management’s conclusions regarding tax positions may be subject to review and adjustment at a later date based on factors including, but not limited to, examination by tax authorities (i.e., the last three tax year ends, as applicable), and on-going analysis of and changes to tax laws and regulations, and interpretations thereof.

If a Fund has foreign tax filings that have not been made, the tax years that remain subject to examination may date back to the inception of the Fund.

As of and during the reporting period ended October 31, 2022, the Funds did not have a liability for any unrecognized tax benefits. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense on the Statements of Operations. During the reporting period, the Funds did not incur any interest or penalties.

SECURITY TRANSACTIONS AND INVESTMENT INCOME – Security transactions are accounted for on the trade date for financial reporting purposes. Costs used in determining realized gains and losses on the sale of investment securities are based on specific identification. Dividend income is recorded on the ex-dividend date. Interest income is recognized on the accrual basis from the settlement date. Amortization of premiums and accretion of discounts is included in interest income.

FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION – The books and records of the Funds are maintained in U.S. dollars. Investment securities and other assets and liabilities denominated in a foreign currency are translated into U.S. dollars on the date of valuation. Purchases and sales of investment securities, income and expenses are translated into U.S. dollars at the relevant rates of exchange prevailing on the respective dates of such transactions. The Funds do not isolate that portion of realized or unrealized gains and losses resulting from changes in the foreign exchange rate from fluctuations arising from changes in the market prices of the securities. These gains and losses are included in net realized and unrealized gains and losses on investments on the Statements of Operations. Net realized and unrealized gains and losses on foreign currency transactions and translations represent net foreign exchange gains or losses from foreign currency spot

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

contracts, disposition of foreign currencies, currency gains or losses realized between trade and settlement dates on securities transactions and the difference between the amount of the investment income and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent amounts actually received or paid.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS – The Funds distribute their net investment income on a pro rata basis. Any net investment income and net realized capital gains are distributed at least annually. All distributions are recorded on ex-dividend date.

INVESTMENTS IN REITs – With respect to the Funds, dividend income is recorded based on the income included in distributions received from REIT investments using published REIT reclassifications, including some management estimates when actual amounts are not available. Distributions received in excess of these estimated amounts are recorded as a reduction of the cost of investments or reclassified to capital gains. The actual amounts of income, return of capital, and capital gains are only determined by each REIT after its fiscal year end, and may differ from the estimated amounts.

CREATION UNITS – The Funds issue and redeem their shares (“Shares”) on a continuous basis at net asset value (“NAV”) and only in large blocks of 10,000 Shares, referred to as “Creation Units”. Purchasers of Creation Units (“Authorized Participants”) at NAV must pay a standard creation transaction fee per transaction. The fee is a single charge and will be the same regardless of the number of Creation Units purchased by an Authorized Participant on the same day.

An Authorized Participant who holds Creation Units and wishes to redeem at NAV would also pay a standard redemption fee per transaction to the Fund's Custodian, on the date of such redemption, regardless of the number of Creation Units redeemed that day.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

October 31, 2022

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

If a Creation Unit is purchased or redeemed for cash, an additional variable fee may be charged. The following table discloses Creation Unit breakdown:

	Creation Unit Shares	Creation Fee	Value at October 31, 2022	Redemption Fee

CASH OVERDRAFT CHARGES – Per the terms of an agreement with BBH, if a Fund for which BBH is Custodian has a cash overdraft on a given day, it will be assessed an overdraft charge of LIBOR plus 2.00%. Per the terms of an agreement with BNY Mellon, if a Fund for which BNY Mellon is Custodian has a cash overdraft, it will be charged interest at a rate then charged by BNY Mellon to its institutional custody clients in the relevant currency. Cash overdraft charges are included in custodian fees on the Statements of Operations.

3. RELATED PARTIES AND SERVICE PROVIDER TRANSACTIONS

On July 2, 2018, the Adviser consummated a transaction pursuant to which it became an indirect, wholly-owned subsidiary of Mirae Asset Global Investments Co., Ltd. (“Mirae”). In this manner, the Adviser is ultimately controlled by Mirae, which is a leading financial services company in Korea and is the headquarters for the Mirae Asset Global Investments Group.

The Adviser serves as the investment adviser and the administrator for the Funds. Subject to the supervision of the Board, the Adviser is responsible for managing the investment activities of the Funds and the Funds’ business affairs and other administrative matters and provides, or causes to be furnished, all supervisory, administrative and other services reasonably necessary for the operation of the Funds, including certain distribution services (provided pursuant to a separate distribution agreement), certain shareholder and distribution-related services (provided pursuant to a separate Rule 12b-1 Plan and related agreements) and investment advisory services (provided pursuant to a separate Investment Advisory Agreement), under what is essentially an “all-in” fee structure. For the Adviser’s service to the respective Funds, under a supervision and administration agreement (the “Supervision and Administration Agreement”), each Fund pays a monthly fee to the Adviser at the annual rate below (stated as a percentage of the average daily net assets of the Fund). In addition, the Funds bear other expenses, directly and indirectly, that are not covered by the Supervision and Administration Agreement, which may vary and affect the total expense ratios of the Funds, such as taxes, brokerage fees, commissions, custodian fees, acquired fund fees, and other transaction expenses, interest expenses and extraordinary expenses (such as litigation and indemnification expenses).

of taxes, brokerage fees, commissions, and other transaction expenses, interest, and extraordinary expenses (such as litigation and indemnification expenses) will not exceed 0.60% of the Fund's average daily net assets per year, until at least March 1, 2024.

**Pursuant to an expense limitation agreement in existence between the Global X Russell 2000 Covered Call & Growth ETF (the "Fund") and the Adviser, the Adviser agreed to waive or reimburse fees and/or limit Fund expenses to the extent necessary to assure that the operating expenses of the Fund, exclusive of taxes, brokerage fees, commissions, and other transaction expenses, interest, and extraordinary expenses (such as litigation and indemnification expenses) will not exceed 0.60% of the Fund's average daily net assets per year, until at least September 27, 2023.

SEI Investments Global Funds Services ("SEIGFS") serves as sub-administrator to the Funds. As sub-administrator, SEIGFS provides the Funds with required general administrative services, including, without limitation: office space, equipment, and personnel; clerical and general back office services; bookkeeping, internal accounting and secretarial services; the calculation of NAV; and assistance with the preparation and filing of reports, registration statements, proxy statements, and other materials required to be filed or furnished by the Funds under federal and state securities laws. As compensation for these services, SEIGFS receives certain out-of-pocket costs, transaction fees, and asset-based fees which are accrued daily and paid monthly by the Adviser.

SEI Investments Distribution Co. ("SIDCO") serves as the Funds' underwriter and distributor of Creation Units pursuant to a distribution agreement. SIDCO has no obligation to sell any specific quantity of Shares.

SIDCO bears the following costs and expenses relating to the distribution of Shares: (1) the costs of processing and maintaining records of creations of Creation Units; (2) all costs of maintaining the records required of a registered broker/dealer; (3) the expenses of maintaining its registration or qualification as a dealer or broker under Federal or state laws; (4) filing fees; and (5) all other expenses incurred in connection with the distribution services as contemplated in the distribution agreement. SIDCO receives no fee from the Funds for its distribution services under the distribution agreement, rather, the Adviser compensates SIDCO for certain expenses, out-of-pocket costs, and transaction fees.

BBH serves as Custodian and transfer agent of the Funds' assets, with the exception of the Global X Russell 2000 Covered Call & Growth ETF. As a Custodian, BBH has agreed, for the Funds which it serves as Custodian, to (1) make receipts and disbursements of money on behalf of the Funds; (2) collect and receive all income and other payments and distributions on account of the Funds' portfolio investments; (3) respond to correspondence from shareholders, security brokers and others relating to its duties; and (4) make periodic reports to the Funds concerning the Funds' operations. BBH does not exercise any supervisory function over the purchase and sale of securities. As transfer agent, BBH has agreed to (1) issue and redeem Shares of each Fund; (2) make dividend and other distributions to shareholders of each Fund; (3) respond to correspondence by

3. RELATED PARTIES AND SERVICE PROVIDER TRANSACTIONS (continued)

shareholders and others relating to its duties; (4) maintain shareholder accounts; and (5) make periodic reports to the Funds. As compensation for these services, BBH receives certain out-of-pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by the Adviser from its fees.

BNY Mellon serves as Custodian and transfer agent to the Global X Russell 2000 Covered Call & Growth ETF. BNY Mellon may appoint domestic and foreign sub-custodians and use depositories from time to time to hold securities and other instruments purchased by the Trust in foreign countries and to hold cash and currencies for the Trust. BNY Mellon also serves as the Global X Russell 2000 Covered Call & Growth ETF's transfer agent. Under its transfer agency agreement with the Trust, BNY Mellon has undertaken with the Trust to provide the following services with respect to the Global X Russell 2000 Covered Call & Growth ETF: (i) perform and facilitate the performance of purchases and redemptions of Creation Units, (ii) prepare and transmit by means of Depository Trust Company's book-entry system payments for dividends and distributions on or with respect to the Shares declared by the Trust on behalf of the Fund, as applicable, (iii) prepare and deliver reports, information and documents as specified in the transfer agency agreement, (iv) perform the customary services of a transfer agent and dividend disbursing agent, and (v) render certain other miscellaneous services as specified in the transfer agency agreement or as otherwise agreed upon.

To the extent consistent with their investment policies, certain Funds may either purchase or write options.

When a Fund purchases an option, the premium paid by it is recorded as an asset of the Fund. When a Fund writes an option, an amount equal to the net premium (the premium less the commission) received by the Fund is included in the liability section of the Fund's Statement of Assets and Liabilities as a deferred credit. The amount of this asset or deferred credit will be subsequently marked-to-market to reflect the current value of the option purchased or written. The current value of the traded option is the last sale price or, in the absence of a sale, the current bid price. If an option purchased by a Fund expires unexercised, the Fund realizes a loss equal to the premium paid. If a Fund enters into a closing sale transaction on an option purchased by it, the Fund will realize a gain if the premium received by the Fund on the closing transaction is more than the premium paid to purchase the option, or a loss if it is less. If an option written by a Fund expires on the

4. INVESTMENT TRANSACTIONS (continued)

stipulated expiration date or if a Fund enters into a closing purchase transaction, it will realize a gain (or loss if the cost of a closing purchase transaction exceeds the net premium received when the option is sold) and the deferred credit related to such option will be eliminated. If an option written by a Fund is exercised, the proceeds of the sale will be increased by the net premium originally received and the Fund will realize a gain or loss.

Risks may arise from an imperfect correlation between the change in market value of the securities held and the prices of options relating to the securities purchased or sold and from possible lack of a liquid secondary market for an option. The maximum exposure to loss for any purchased option is limited to the premium initially paid for the option. Written uncovered call options subject a Fund to unlimited risk of loss. Written covered call options limit the upside potential of a security above the strike price. Written put options expose a Fund to risk of loss if the value of the security declines below the strike price.

The Global X NASDAQ 100[®] Covered Call ETF, Global X S&P 500[®] Covered Call ETF, Global X Russell 2000 Covered Call ETF, Global X Dow 30[®] Covered Call ETF, Global X Nasdaq 100[®] Covered Call & Growth ETF, Global X S&P 500[®] Covered Call & Growth ETF, Global X Russell 2000 Covered Call & Growth ETF, Global X S&P 500[®] Tail Risk ETF, Global X S&P 500[®] Risk Managed Income ETF, Global X S&P 500[®] Collar 95-110 ETF, Global X Nasdaq 100[®] Tail Risk ETF, Global X Nasdaq 100[®] Risk Managed Income ETF, and Global X Nasdaq 100[®] Collar 95-110 ETF may write covered call and/or put options that correspond to their respective reference index. By writing a covered call option, a Fund, in exchange for the premium, foregoes the opportunity for capital appreciation above the strike price should the market price of the underlying security increase. Conversely, by writing a put option, the Fund, in exchange for the premium, accepts the risk of having to purchase a security at a fixed strike price even should the price of the underlying security decrease, exposing the Fund to downside risk in the underlying security.

When the written option expires, is terminated or is sold, a Fund will record a gain or loss. The net realized gain or loss on options contracts is reflected in the Statements of Operations and the net unrealized gains/(losses) are included as a component of the net change in unrealized appreciation/(depreciation) on options contracts in the Statements of Operations.

5. DERIVATIVE TRANSACTIONS

6. TAX INFORMATION

The Global X SuperDividend® REIT ETF has a tax year that ends on December 31. The following tax disclosures are representative as of October 31, 2022. Accordingly, the disclosures are for informational use by shareholders and are subject to change attributable to activity through the end of the tax year ending December 31, 2022.

The amount and character of income and capital gain distributions to be paid, if any, are determined in accordance with Federal income tax regulations, which may differ from U.S. GAAP. As a result, net investment income (loss) and net realized gain (loss) on investment transactions for a reporting period may differ significantly from distributions during such period. These book/tax differences may be temporary or permanent. To the extent these differences are permanent in nature, they are charged or credited to undistributed net investment income (loss), accumulated net realized gain (loss) or paid-in capital, as appropriate, in the period that the differences arise.

The following differences, primarily attributable to preferred stock interest, foreign currency, redemptions in-kind, REIT adjustments, MLP adjustments, net operating loss, return of capital distribution and sales of passive foreign investment companies have been reclassified to/from the following accounts during the fiscal year ended October 31, 2022:

⁽¹⁾ The Global X SuperDividend® REIT ETF has a tax year that ends on December 31.

For taxable years beginning after December 22, 2010, a Registered Investment Company within the meaning of the 1940 Act is permitted to carry forward net capital losses to offset capital gains realized in later years, and the losses carried forward retain their original character as either long-term or short-term losses. Losses carried forward under these provisions are as follows:

The preceding differences between book and tax cost are primarily due to mark-to-market treatment of passive foreign investment companies, mixed straddles, MLP adjustments, wash sales, late year loss deferrals and differences due to preferred debt securities.

7. CONCENTRATION OF RISKS

The Funds invest in securities of foreign issuers in various countries. These investments may involve certain considerations and risks not typically associated with investments in the United States as a result of, among other factors, the possibility of future political and economic developments, the level of governmental supervision and regulation of securities markets in the respective countries.

The securities markets of emerging countries are less liquid, subject to greater price volatility, and have a smaller market capitalization than those of U.S. securities markets. In certain countries, there may be fewer publicly traded securities and the market may be dominated by a few issuers or sectors. Issuers and securities markets in such countries are not subject to as extensive and frequent accounting, financial and other reporting requirements or as comprehensive government regulations as are issuers and securities markets in the U.S. In particular, the assets and profits appearing on the financial statements of emerging country issuers may not reflect their financial position or results of operations in the same manner as financial statements for U.S. issuers. Substantially less information may be publicly available about emerging country issuers than is available about issuers in the United States.

The Funds may be subject to taxes imposed by countries in which they invest. Such taxes are generally based on either income or gains earned or repatriated. The Funds accrue and apply such taxes to net investment income, net realized gains and net unrealized gains as income and/or capital gains are earned.

Except for the Global X Russell 2000[®] Covered Call ETF, which uses a representative sampling strategy, the Funds use a replication strategy. A replication strategy is an indexing strategy that involves investing in the securities of an underlying index in approximately the same proportions as in the underlying index. A representative sampling strategy is an indexing strategy that involves investing in a representative sample of securities (including indirect investments through underlying ETFs) that collectively has an investment profile similar to an underlying index in terms of key risk factors, performance attributes and other characteristics. Each Fund may utilize a representative sampling strategy with respect to its underlying indices when a replication strategy might be detrimental to its shareholders, such as when there are practical difficulties or substantial costs involved in compiling a portfolio of equity securities to follow their underlying indices, or, in certain instances, when securities in the underlying indices become temporarily illiquid, unavailable or less liquid, or due to legal restrictions (such as diversification requirements that apply to a Fund but not the underlying index).

The elimination of the London Inter-Bank Offered Rate (“LIBOR”) may adversely affect the interest rates on, and value of, certain Fund investments for which the value is tied to LIBOR. The U.K. Financial Conduct Authority has announced that it intends to stop compelling or inducing banks to submit LIBOR rates after 2021. On March 5, 2021, the

7. CONCENTRATION OF RISKS (continued)

administrator of LIBOR clarified that the publication of LIBOR on a representative basis will cease for the one-week and two-month U.S. dollar LIBOR settings immediately after December 31, 2021, and for the remaining U.S. dollar LIBOR settings immediately after June 30, 2023. Alternatives to LIBOR are established or in development in most major currencies, including the Secured Overnight Financing Rate (“SOFR”), which is intended to replace U.S. dollar LIBOR. Markets are slowly developing in response to these new rates. Questions regarding the impact of this transition remain a concern for the Funds. Accordingly, it is difficult to predict the full impact of the transition away from LIBOR on the Funds until new reference rates and fallbacks for both legacy and new products, instruments and contracts are commercially accepted. Please refer to each Fund’s prospectus and statement of additional information (“SAI”) for a more complete description of risks.

8. LOANS OF PORTFOLIO SECURITIES

Each Fund may lend portfolio securities having a market value up to one-third of its total assets. Security loans made pursuant to a securities lending agreement with BBH are initially required to be secured by collateral equal to at least 102% of the value of domestic equity securities and American Depositary Receipts (“ADRs”) and 105% of the value of foreign equity securities (other than ADRs). Such collateral received in connection with these loans will be cash and can be invested in repurchase agreements, short term investments or U.S. Treasury obligations, and is recognized in the Schedules of Investments and Statements of Assets and Liabilities. The obligation to return securities lending collateral is also recognized as a liability in the Statements of Assets and Liabilities. It is the Funds’ policy to obtain additional collateral from or return excess collateral to the borrower by the end of the next business day, following the valuation date of the securities loaned. Therefore, the value of the collateral held may be temporarily less than the value of the securities on loan.

Lending securities entails a risk of loss to the Funds if and to the extent that the market values of the securities loaned were to increase and the borrower did not increase the collateral accordingly, and the borrower failed to return the securities. In the event the borrower may not provide additional collateral when required or may not return the securities when due, the securities lending agency agreement requires the lending agent to indemnify the Funds by replacing either the security or the security’s current market value to the Funds. The Funds could suffer a loss if the value of an investment purchased with cash collateral falls below the market value of loaned securities or if the value of an investment purchased with cash collateral falls below the value of the original cash collateral received. The Funds could also experience delays and costs in gaining access to the collateral. The Funds bear the risk of any deficiency in the amount of the collateral available for return to the borrower due to any loss on the collateral invested.

(1) It is the Funds' policy to obtain additional collateral from or return excess collateral to the borrower by the end of the next business day, following the valuation date of the securities loaned. Therefore, the value of the collateral held may be temporarily less than the value of the securities on loan.

9. CONTRACTUAL OBLIGATION

The Funds enter into contracts in the normal course of business that contain a variety of indemnifications. The Funds' maximum exposure under these contracts is unknown; however, the Funds have not had prior gains or losses pursuant to these contracts. Management has reviewed the Funds' existing contracts and expects the risk of loss to be remote.

Pursuant to the Trust's organizational documents, the Trustees of the Trust (the "Trustees") and the Trust's officers are indemnified against certain liabilities that may arise out of the performance of their duties.

10. SUBSEQUENT EVENTS

The Board of the Trust approved a reverse share split of one to three (1:3) of the issued and outstanding shares of the Global X Emerging Markets Internet & E-commerce ETF, Global X SuperDividend® ETF, Global X MSCI SuperDividend® Emerging Markets ETF and Global X SuperDividend® REIT ETF (the "Reverse Share Split"). The Reverse Share Split was completed after the close of business on December 19, 2022. The effect of this transaction for each Fund was to divide the number of outstanding Shares of the Fund by three, resulting in a corresponding increase in the NAV per Share. The capital share activity presented on the Statement of Changes in Net Assets for each of the years in the period then ended, and the per share data in the financial highlights for each of the years in the period then ended have been updated to reflect this reverse share split. There were no changes in net assets, results of operations or total return as a result of this transaction.

10. SUBSEQUENT EVENTS (continued)

The Funds have been evaluated by management regarding the need for additional disclosures (other than what is disclosed in the preceding paragraph) and/or adjustments resulting from subsequent events. Based on this evaluation, no additional adjustments were required to the financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of Global X Funds and Shareholders of each of the twenty-eight funds listed in the table below.

Opinions on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of each of the funds listed in the table below (twenty-eight of the funds constituting Global X Funds, hereafter collectively referred to as the "Funds") as of October 31, 2022, the related statements of operations and of changes in net assets for each of the periods indicated in the table below, including the related notes, and the financial highlights for each of the periods indicated in the table below (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of October 31, 2022, the results of each of their operations, the changes in each of their net assets, and each of the financial highlights for each of the periods indicated in the table below, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinions

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of October 31, 2022, by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we

by Mirae Asset

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinions.

We have served as the auditor of one or more investment companies in Global X Funds since 2016.

DISCLOSURE OF FUND EXPENSES (UNAUDITED)

All ETFs (such as the Funds) have operating expenses. As a shareholder of an ETF, your investment is affected by these ongoing costs, which include (among others) costs for ETF management, administrative services, commissions, and shareholder reports like this one. It is important for you to understand the impact of these costs on your investment returns. In addition, a shareholder is responsible for brokerage fees as a result of the shareholder's investment in a Fund.

Operating expenses such as these are deducted from a Fund's gross income and directly reduce their final investment returns. These expenses are expressed as a percentage of the Fund's average net assets; this percentage is known as the Fund's expense ratio.

The following examples use the expense ratio and are intended to help you understand the ongoing costs (in dollars) of investing in a Fund and to compare these costs with those of other funds. The examples are based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period (May 1, 2020 through October 31, 2021).

The table on the next page illustrates the Funds' costs in two ways:

Actual Fund Return. This section helps you to estimate the actual expenses that your Fund incurred over the period. The "Expenses Paid During Period" column shows the actual dollar expense cost incurred by a \$1,000 investment in the Fund, and the "Ending Account Value" number is derived from deducting that expense cost from the Fund's gross investment return.

You can use this information, together with the actual amount you invested in the Fund, to estimate the expenses you paid over that period. Simply divide your actual account value by \$1,000 to arrive at a ratio (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply that ratio by the number shown for your Fund under "Expenses Paid During Period."

Hypothetical 5% Return. This section helps you compare your Fund's costs with those of other funds. It assumes that the Fund had an annual 5% return before expenses during the year, but that the expense ratio (Column 3) for the period is unchanged. This example is useful in making comparisons because the SEC requires all funds to make this 5% calculation. You can assess your Fund's comparative cost by comparing the hypothetical result for your Fund in the "Expenses Paid During Period" column with those that appear in the same charts in the shareholder reports for other funds.

NOTE: Because the return is set at 5% for comparison purposes — NOT your Fund's actual return — the account values shown may not apply to your specific investment.

- (1) Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).
- (2) Expenses are equal to the Fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 27/365 (to reflect the one-half year period).

LIQUIDITY RISK MANAGEMENT PROGRAM (UNAUDITED)

Pursuant to Rule 22e-4 under the 1940 Act, the Funds' investment adviser has adopted, and the Board has approved, a liquidity risk management program (the "Program") to govern the Funds' approach to managing liquidity risk. The Program is overseen by the Funds' Liquidity Risk Management Committee (the "Committee"), and the Program's principal objectives include assessing, managing and periodically reviewing each Fund's liquidity risk, based on factors specific to the circumstances of the Funds.

At a meeting of the Board held on May 20, 2022, the Trustees received a report from the Committee addressing the operations of the Program and assessing its adequacy and effectiveness of implementation for the period from January 1, 2021 through December 31, 2021. The Committee's report noted that the Committee had determined that the Program is reasonably designed to assess and manage each Fund's Liquidity Risk and operated adequately and effectively to manage each Fund's Liquidity Risk for the period covered by the report. The Committee's report noted that during the period covered by the report, there were no liquidity events that impacted the Funds or their ability to timely meet redemptions without dilution to existing shareholders. The Committee's report noted that one Fund of the Trust, the Global X Nigeria Fund, was classified as an In-Kind Fund for purposes of Liquidity Reporting. The Committee's report noted that no other material changes have been made to the Program since its implementation.

There can be no assurance that the Program will achieve its objectives in the future. Please refer to the prospectus for more information regarding a Fund's exposure to liquidity risk and other principal risks to which an investment in the Funds may be subject.

APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED)

Section 15(c) of the Investment Company Act of 1940, as amended (“1940 Act”), requires that the board of trustees of an exchange-traded fund (“ETF”), including a majority of those trustees who are not “interested persons” of the ETF, as defined in the 1940 Act (“Independent Trustees”), consider on an initial basis and periodically thereafter (as required by the 1940 Act), at an in person meeting called for such purpose, the terms of each ETF’s investment advisory agreement and whether to approve entering into, or renewing, each agreement.

At a Board meeting of the Global X Funds (the “Trust”) held at the office of Global X Management Company LLC, the Trust’s investment adviser (“Global X Management”), on August 10, 2022 (the “New Fund Board Meeting”), the Board of Trustees (the “Board”) (including the Trust’s Independent Trustees, voting separately) considered and unanimously approved (i) the initial Investment Advisory Agreement (“New Investment Advisory Agreement”) for the Global X Russell 2000 Covered Call & Growth ETF (“New Fund”) and (ii) the initial Supervision and Administration Agreement between the Trust (“New Supervision and Administration Agreement”), on behalf of the New Fund, and Global X Management. The New Investment Advisory Agreement and New Supervision and Administration Agreement are referred to collectively as the “New Fund Agreements.”

In advance of the Board meeting, the Board (including the Trust’s Independent Trustees) and the Independent Trustees’ independent legal counsel requested (in writing) detailed information from Global X Management in connection with the Board’s consideration of the New Fund Agreements and received and reviewed written responses from Global X Management and supporting materials relating to those requests for information. In the course of their consideration of the New Fund Agreements, the Trust’s Independent Trustees were advised by their independent legal counsel and, in addition to meetings with management of Global X Management, the Independent Trustees met separately in executive sessions with their counsel.

In determining to approve the New Fund Agreements for the New Fund, the Board considered a variety of factors, including the factors discussed in greater detail below.

Nature, Extent and Quality of Services

With respect to this factor, the Board considered:

- the terms of the New Fund Agreements and the range of services proposed to be provided to the New Funds in accordance with the New Fund Agreements;
- Global X Management’s key personnel and the portfolio managers who would provide investment advisory, supervision and administrative services to the New Fund;
- Global X Management’s responsibilities under the New Fund Agreements to, among other things, (i) manage the investment operations of the New Fund and the composition of the New Fund’s assets, including the purchase, retention and disposition of its holdings, (ii) provide quarterly reports to the Trust’s officers and the Board and

APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) (CONTINUED)

other reports as the Board deems necessary or appropriate, (iii) vote proxies, exercise consents, and exercise all other rights appertaining to securities and assets held by the New Fund, (iv) select broker-dealers to execute portfolio transactions for the New Fund when necessary, (v) assist in the preparation and filing of reports and proxy statements (if any) to the shareholders of the New Fund, and the periodic updating of the registration statements, prospectuses, statements of additional information, and other reports and documents for the New Fund that are required to be filed by the Trust with the U.S. Securities and Exchange Commission (“SEC”) and other regulatory or governmental bodies, and (vi) monitor anticipated purchases and redemptions of the shares (including Creation Units) of the New Fund by shareholders and new investors;

- the nature, extent and quality of all of the services (including advisory, administrative and compliance services) that are proposed to be provided by Global X Management or made available to the New Fund; and
- the quality of Global X Management’s resources and personnel that would be made available to the New Fund, including Global X Management’s experience and the professional qualifications of Global X Management’s key personnel.

Based on these considerations, the Board concluded, at the New Fund Board Meeting, that it was satisfied with the nature, extent and quality of the services proposed to be provided to the New Fund by Global X Management.

Performance

The Board determined that, because the New Fund had not yet begun investment operations as of the date of the New Fund Board Meeting, meaningful data relating to the investment performance of the New Fund was not available and, therefore, could not be a factor in approving the New Fund Agreements.

Cost of Services and Profitability

With respect to this factor, the Board considered:

- Global X Management’s expected costs to provide investment management, supervision and administrative and related services to the New Fund;
- The management fee (including the proposed investment advisory fee) (“Management Fee”) that was proposed to be borne by the New Fund under the New Fund Agreements for the various investment advisory, supervisory and administrative services that the New Fund requires under a unitary fee structure (including the types of fees and

APPROVAL OF INVESTMENT ADVISORY AGREEMENT (UNAUDITED) (CONTINUED)

expenses that are not included within the unitary fee and would be borne by the New Fund); and

- the expected profitability to Global X Management, if any, from all of the services proposed to be provided to the New Fund by Global X Management and all aspects of the relationship between Global X Management and the New Fund.

Based on these considerations, the Board concluded that the proposed Management Fee to be paid by the New Fund to Global X Management, in light of the nature, extent and quality of the services to be provided, was reasonable and in the best interests of the New Fund's shareholders.

Comparison of Fees and Services

With respect to this factor, the Board considered:

- comparative information with respect to the proposed Management Fee to be paid to Global X Management by the New Fund. In connection with this consideration, Global X Management provided the Board with comparative expense data for the New Fund, including fees and expenses paid by unaffiliated similar specialized and/or focused ETFs, and/or other similar registered funds.
- the structure of the proposed unitary Management Fee (which includes as one component the proposed investment advisory fee for the New Fund) and the expected total expense ratio for the New Fund. In this regard, the Board took into consideration that the purpose of adopting a unitary Management Fee structure for the New Fund was to create a simple, all-inclusive fee that would provide a level of predictability with respect to the overall expense ratio (i.e., the total fees) of the New Fund and that the proposed Management Fee for the New Fund was set at a competitive level to make the New Fund viable in the marketplace; and
- that, under the proposed unified Management Fee structure, Global X Management would be responsible for most ordinary expenses of the New Fund, including the costs of various third-party services required by the New Fund, including investment advisory, administrative, audit, certain custody, portfolio accounting, legal, transfer agency and printing costs, but that the New Fund would bear other expenses not covered under the proposed all-inclusive Management Fee, such as taxes, brokerage fees, commissions, and other transaction expenses, interest expenses, and extraordinary expenses.

Based on these considerations, the Board concluded, at the New Fund Board Meeting, that the services to be received and the fees to be charged under the New Fund Agreements were reasonable on a comparative basis.

Economies of Scale

With respect to this factor, the Board considered:

- the extent to which economies of scale would be realized as the New Fund grows and whether the proposed unitary Management Fee for the New Fund reflected these economies of scale;
- the significant investment of time, personnel and other resources that Global X Management intends to make in the New Fund in order to seek to assure that the New Fund is attractive to investors; and
- that the proposed unitary Management Fee would provide a high level of certainty as to the total level of expenses for the New Fund and its shareholders.

Based on these considerations, the Board concluded, at the New Fund Board Meeting, that the proposed unitary Management Fee for the New Fund appropriately addressed economies of scale.

Other Benefits

In considering the New Fund Agreements, in addition to the factors discussed above, the Board considered other benefits that may be realized by Global X Management as a result of its relationships with the New Fund. As a result, the Board concluded that, in the case of the New Fund, in the exercise of the Board's business judgement, all information the Board considered supported approval of the New Fund Agreements.

Conclusion

After full consideration of the factors above, as well as other factors that were instructive in their consideration, the Board, including all of the Trust's Independent Trustees voting separately, concluded, in the exercise of its business judgement, that the New Fund Agreements were fair and reasonable and in the best interest of the New Fund.

In reaching this decision, the Board did not assign relative weights to the factors above nor did the Board deem any one factor or group of them to be controlling in and of themselves. Each member of the Board may have assigned different weights to the various factors.

SUPPLEMENTAL INFORMATION (UNAUDITED)

NAV is the price per Share at which the Funds issue and redeem Shares. It is calculated in accordance with the standard formula for valuing mutual fund shares. The “Market Price” of the Funds generally is determined using the midpoint between the highest bid and the lowest offer on the stock exchange on which the Shares of the Funds are listed for trading, as of the time that the Funds’ NAV is calculated. The Funds’ Market Price may be at, above or below their NAV. The NAV of the Funds will fluctuate with changes in the market value of the Funds’ holdings. The Market Price of the Funds will fluctuate in accordance with changes in their NAV, as well as market supply and demand.

Premiums or discounts are the differences (expressed as a percentage) between the NAV and Market Price of the Funds on a given day, generally at the time NAV is calculated. A premium is the amount that the Funds are trading above the reported NAV, expressed as a percentage of the NAV. A discount is the amount that the Funds are trading below the reported NAV, expressed as a percentage of the NAV.

Further information regarding premiums and discounts is available on the Funds’ website at www.globalxetfs.com.

TRUSTEES AND OFFICERS OF THE TRUSTEES (UNAUDITED)

Set forth below are the names, addresses, years of birth, positions with the Trust, Term of Office and Length of Time Served, the principal occupations for the last five years, number of Funds in Trust overseen by the Trustees, and other directorships outside the fund complex of each of the persons currently serving as Trustees and Officers of the Trust.

(3) "U.S. Government Interest" represents the amount of interest that was derived from U.S. Government obligations and distributed during the fiscal year. Generally, interest from direct U.S. Government obligations is exempt from state income tax. However, for shareholders who are residents of California, Connecticut and New York, the statutory threshold requirements were not satisfied to permit exemption of these amounts from state income.

NOTICE TO SHAREHOLDERS (UNAUDITED)

⁽⁴⁾ The percentage in this column represents the amount of "Interest Related Dividends" as created by the American Jobs Creation Act of 2004 and is a percentage of net investment income that is exempt from U.S. withholding tax when paid for foreign investors.

⁽⁵⁾ The percentage of this column represents the amount of "Short Term Capital Gain Dividend" and is reflected as a percentage of short term capital gain distribution that is exempted from U.S. withholding tax when paid to foreign investors.

⁽⁶⁾ The percentage of this column represents that amount of ordinary dividend income that qualified for 20% Business Income Deduction.

Certain Funds intend to pass through a foreign tax credit to shareholders. For the fiscal year ended October 31, 2022 the total amount of foreign source income and foreign tax credit are as follows:

Fund Name	Foreign Source Income	Foreign Tax Credit Pass Through
Global X Disruptive Materials ETF	\$ 83,661	\$ 9,925
Global X Superdividend® ETF	46,660,747	1,917,262
Global X MSCI SuperDividend® EAFE ETF	821,599	56,262
Global X MSCI SuperDividend® Emerging Markets ETF	4,439,537	544,311
Global X Renewable Energy Producers ETF	1,393,112	174,127
Global X S&P Catholic Values Developed ex-U.S. ETF	163,141	14,486

The information reported herein may differ from the information and distributions taxable to the shareholders for the calendar year ending December 31, 2022. Complete information will be computed and reported in conjunction with your 2022 Form 1099-DIV.
